

WHY SURECAN?

This is not your same old hard to use, spill on yourself fuel can. SureCans are high quality fuel dispensing machines made in the USA!

SureCan fuel cans are FM Approved, meet OSHA & MSHA standards, DOT compliant, UN approved, accepted by the EPA & CARB and simply are the best fuel cans to use on the job, at home or out playing.

The flexible spout rotates down more than 180 degrees and fits perfectly into any machine's fill location, while the thumb trigger gives complete control of fuel flow making refueling easy and spill free!
