

Patented Pressure Lubricated Airbase Industries Two-Stage 10HP Solid Cast Iron Reciprocating Pump- (Industrial Plus Series Only)

Pressure Gauge to easily monitor running oil pressure

Large Solid cast iron flywheel generates kinetic energy to reduce power consumption is therefore more energy efficient

Disc valves for ease of maintenance & long valve life

Crankcase Breather

All Steel Re-buildable connecting Rods with replaceable Bearings- no aluminum

Built in Head unloaders for continuous run, energy savings and less wear on the motor

Low oil shut down protects compressor if oil pressure drops below normal operating pressure

Oil Sight glass allows you to view the oil level inside the crankcase

2nd stage aftercooler for maximum cooling

Deep finned cylinders and head for maximum heat dissipation

Large low RPM pump for long life & quiet operation. 50,000 hour life expectancy, based on B10 bearing life. We back that with a 5 year parts warranty!

Solid Cast Iron Cylinders, Cylinder heads and Crankcase,

Built in oil filter

Patented Pressure lubricated pump design delivers constant lubrication even as low as 100 RPM's!

Double B-Section Dual Belt Drive with large built in cooling fan
