# Truma Quality and Innovation

Welcome to the world of comfort and quality -- welcome to Truma, a leading supplier of comfort systems for the recreation vehicle industry. Truma has a long history of providing innovative, quality solutions to campers all over the world since 1949. With our headquarters and manufacturing based in Munich, Germany, plus sales and service in North America, we are positioned to provide solutions based on world class engineering and processes to meet and exceed your expectations.

Truma has been the leading European supplier of RV accessories for the last 70 years, setting the highest standard for quality RV products. That tradition continues today as we supply the most innovative RV systems to North America, including unique RV heating systems and the Truma AquaGo that provides instant, constant and endless hot water.

Truma product innovations are designed and tested specifically for the rigors of camping and outdoor activities in the diverse terrains unique to North America. So whether it is a near silent heating system or a portable fridge/freezer, make sure your adventures have Truma On Board.

For anyone enjoying diverse activities from fishing trips to sporting events or family cookouts, our core promises of reliability, competence, quality and service are built into every Truma portable fridge/freezer.

## Truma Cooler

Smart. Efficient. Robust.

The Truma Cooler is designed for any adventure, keeping food and drinks ice cold or frozen, and is suitable for every kind of vehicle. Whether bringing chilled drinks to an after-school soccer practice or heading out on a week-long camping trip, the electric Truma Cooler can be used as a refrigerator or freezer and is available in a wide variety of sizes and series. # Truma Accessories

## Truma Cooler Insulated Covers

Adding an insulated cover improves the energy efficiency of the Truma Cooler allowing the unit to cool more easily. The durable nylon exterior protects the Truma Cooler against scratches and dirt. Available for all Truma Cooler sizes and series.

## Truma LevelCheck: never run out of propane

Truma propane level indicator: Never run out of propane in your LP tank again. Truma LevelCheck determines the level in your LP tank using ultrasound. It's easy to use, reliable and is perfect for your BBQ, RVing and camping.

- Measures quickly and reliably in just seconds
- Easy to use, with LED display, ready to use immediately
- Suitable for all steel and aluminum LPG cylinders with diameter of 8" to 14"
- Ultrasound technology
