

Sunscope® is a 3-part system of components that are installed on an existing roof structure. It is the modern solution for replacing the old-fashioned roof over your patio, deck or porch.

3-Part System

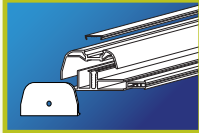

1 SUNSCAPE® Premium Roof Panel

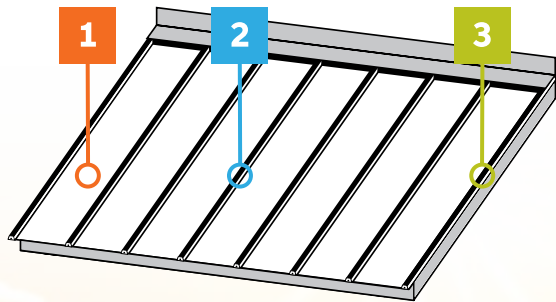

2 SUNSCAPE® Inner Profile Kit

3 SUNSCAPE® End Profile Kit

Each of the 3 components sold separately and all need to be purchased to complete installation.

The SUNSCAPE Roof Covering System is designed to be installed by anyone who is handy with tools. It's recommended that two people work together as a team during installation – for both safety and ease of handling the different components.

Backed by a 10-Year Warranty and Miami-Dade product-control approved.
