Using Amazon Echo
Quick Guide

Preparation

- Amazon Alexa APP
- Amazon Alexa account (users need to register their own account)
- AvatarControls APP
- AvatarControls APP account (users need to register their own account, select region as "The United States".)
- Echo, Echo Dot, Tap and other Amazon voice-operated devices Our smart device (For example, smart plug)

Rename the device after configuring successfully, and then name of the device is recommended to use easy pronunciation of the English words.

Set your Echo speaker by Alexa APP

- Sign in with Alexa account & password (If not registered, sign up first). After login, click the menu, at the top left, then click the "Settings", and choose "Set up a new device".
- Choose a device (for example, Echo). When the right page appears, long press the small dot on your Echo device until the lights turn to be yellow. Then click "Continue" on APP. (Note: at this time the mobile phone can not open a variety of VPN software.)

Echo Setup
Wait for the orange light ring

Make sure your Echo is plugged into a power outlet. In about a minute, Echo will tell you that it is ready and the light ring will turn orange. Then continue.

Continue

Cancel setup

Don't see the orange light ring?

- Choose user's WiFi and wait for a few minutes.
- After an introduction video, click next step. It will go to "Home" page automatically. Now the echo is connected to Alexa APP through WIFI successfully.

Enable our skill in Alexa APP

- Choose "Skills" in the options bar, and then search "AvatarControls APP" in the input box; Select "Avatar-Controls APP"in the search results, and then click "En-abled Skill". (Note: There will be the interface on the right, which indicates that the account has been bou-nd. If there is more than one test, you can click on the "Disable Skill" to remove the binding, and then click on the "Enable Skill" to continue to bind a new " AvatarControls APP account".)

- Input the user name and password that you had previously registered (Only support the account in the United States), when you see the right page. It means the Alexa account is linked with AvatarControls APP account.

Amazon Alexa

amazon alexa

Alexa has been successfully linked with Smart Life APP

You can now close this window, return to your Alexa app and run discovery to find your new devices.
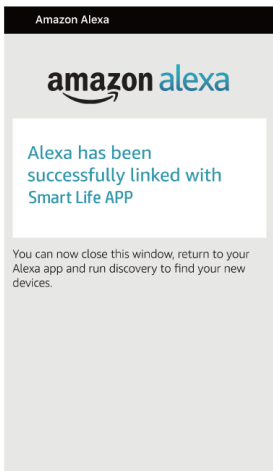

Control Device via Alexa APP

After the previous operation is successful, you can control socket via Echo.

Discover device: Firstly, users need to say to Echo: Echo(or Alexa), discover my device," Echo will start to find the device which is added in AvatarControls APP, it will take about 20 seconds to show the result. Or click "Discover devices" in Alexa APP, it will show the devices that found successfully.

Note: "Echo" is one of the wake-up names, which can be any of there three names (Settings): Alexa/Echo/Amazon.

- Support Skill List
  Users can control devices by instructions like below:
  Alexa, turn on [bedroom socket]
  Alexa, turn off [bedroom socket]
  Note: The name of the device must be consistent with the addition of AvatarControls APP.

Using Google Home
Quick Guide

Preparation

- A Google Home device, or Android phone with Google Assistant.
- Latest Google Home app.
- Latest Google app (Android only)
- A Google account.
- The device display language must be set to English US.
- AvatarControls app and a related account.
- Our smart device (For example, smart plug)
- Complete product networking configuration in the AvatarControls App

Configure Google Home device

- Make sure your Google Home device is powered on and connected to a Wi-Fi network.
- Open the Google Home app on your phone. After successful login, tap on the menu in the upper left corner and select "SET UP" to set up Google Home.
- It will notify you with a sound to ensure that you are connected to the correct device. After you hear the sound, tap
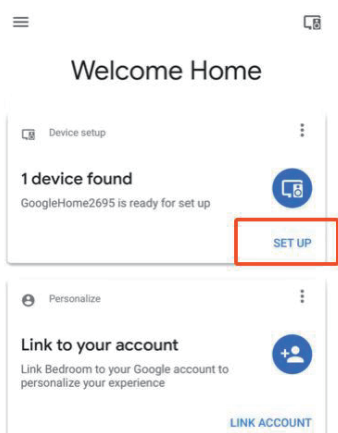

"YES" to proceed to the next step.

- You can choose to differentiate the room where Google Home is located from other Google devices.

Then, select the Wi-Fi network and language, wait for the system to complete the configura -tion, and tap "next.

- According to the page prompts, choose whether to agree to the corresponding operation. When the page displays "Google Home is ready," select "continue" to continue to the next step.

CONTINUE ›
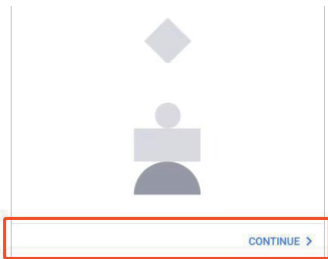

- Next is the voice control guide tutorial. Once you're done listening, tap "FINISH SET UP." At this point, Google Home setup is complete.

Key step - link Action

- On the main page of the Google Home app, tap the sidebar menu in the top left corner and select "Home Control."
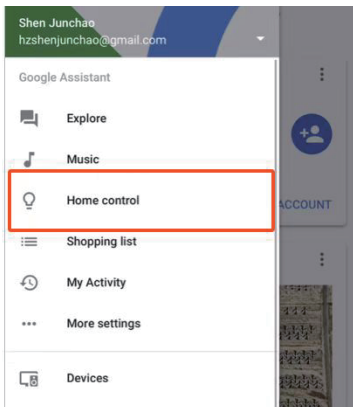

- Then tap the plus sign in the lower right corner and search for "AvatarControls."
- Find AvatarControls on the list and open it, select the country where your AvatarControls app account is located, enter your AvatarControls app account and password, and tap "Link Now."
