

# Inventor™ Series

## Auto-Darkening Welding Helmets

283429  
May 2022

### Quick Specs

**2-YEAR  
WARRANTY**

**Viewing Field** 3.94 x 2.36 in. (100 x 60 mm)  
**Shades** Darkened state: #9–13, Light state: #3  
**Switching Speed** 1/25,000 second  
**Operating Modes** Weld and grind  
**Sensors** 4  
**Weight** 19.7 oz. (560 g)

**Large 9.3-square-inch viewing area** with wide screen format provides improved visibility.

**Four independent arc sensors** provide dependable arc detection.

**Grind mode** prevents lens from darkening for clear, visible grinding.

**Headgear** provides extensive adjustability settings.

**Analog controls** allow welder to easily adjust shade, sensitivity and delay.

**Helmet accepts magnifying “cheater” lens** (see Accessories on back page).

**Auto-on/off power control** triggers lens at the strike of an arc.

**100% continuous UV and IR protection.**

**Meets ANSI Z87.1-2015, CSA and CE EN379 standards.**
