

# BITE BARRIER *with* Garscentria Liquid

## Insect Barrier

If the threat of insect transmitted diseases are keeping you from getting out and enjoying the great outdoors, it's time to put your foot down and get back to enjoying nature with less worry. Bite Barrier provides extra protection against biting and blood sucking pests that might be carrying dangerous disease. Whether you are hiking the trails or working the garden, ticks, gnats, mosquitoes and spiders are everywhere. Bite Blockers are so easy to use! Simply spray the Bite Blockers with all-natural Garscentria Liquid (4oz bottled included in kit) which has been specifically formulated with concentrated garlic and essential oils shown to be effective against flying insects like mosquitoes as well as ticks. Slip on the treated mid-thigh length stockings to keep these dangerous insects away from you and off your skin. Enjoy the extra added soothing "stocking" compression when you walk, hike or work in the garden. The Bite Barrier makes being outdoors less stressful because you've got the extra protection against from Lyme ticks, EEE and West Nile mosquitoes.

Comfortably worn with shorts or under a pair of pants!
