

SD NOZZLE SERIES

FILL-RITE®

The SD Series nozzles from Fill-Rite usher in a new era of both value and performance. These standard-duty nozzles are built for use in light applications where heavy-duty performance is not needed.

SD Series nozzles are offered at competitive prices, yet still feature the trusted Fill-Rite reliability and durability your customers expect!

SDN075GAN

SDN100GAN

INLET SIZE	3/4"	3/4"	1"
SPOUT SIZE	Gasoline - 13/16"	Diesel - 15/16"	Diesel - 1 1/8"
FLOW RATE RANGE	3 - 14.5 GPM	3 - 14.5 GPM	5 - 25 GPM
SLEEVE COLOR	Red	Green	Green

FLUID COMPATIBILITY:

GASOLINE / PETROLEUM

DIESEL

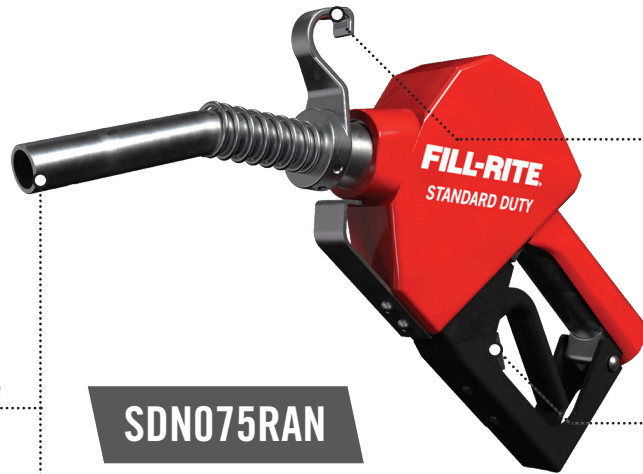

BIODIESEL (TO B20)

E10

KEROSENE

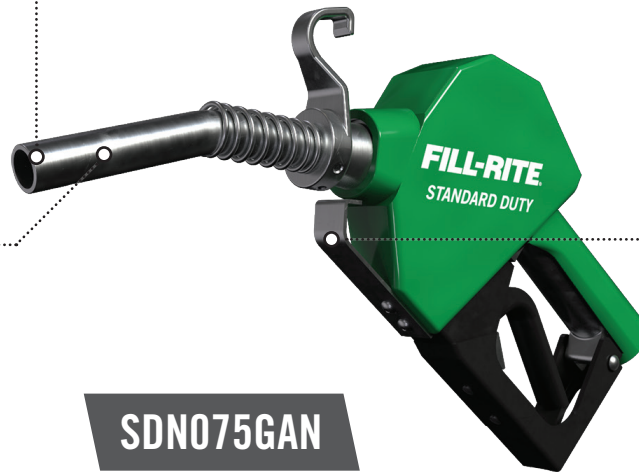

SDN075RAN

Convenient Storage
Spout hook provides convenient storage option

Prevent Vehicle Damage
Differing diameters for diesel and gasoline spouts to prevent cross fueling

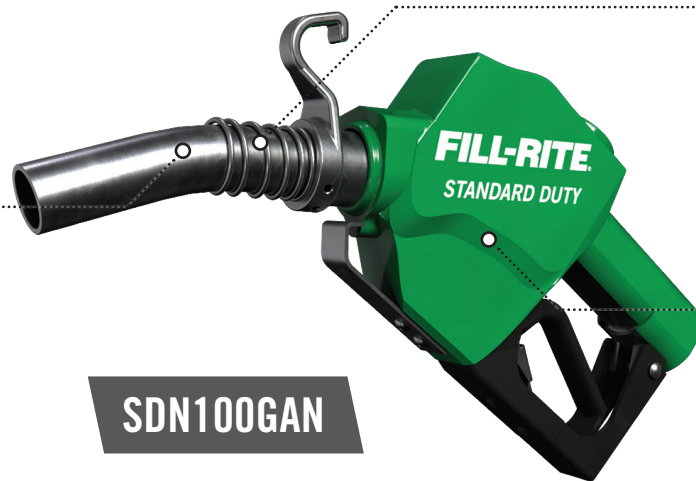

Tailored Performance
Three separate locking positions to achieve optimal fluid flow

SDN075GAN

Durable Design
Skid plates prevent damage from hanging nozzle after use

Automatic Shut Off
Reduces mess by preventing overfilling and spilling

SDN100GAN

Easy Filling
Spout spring ensures optimal nozzle placement during filling

High Flow
Diesel truck spout available for high-flow applications

Fluid-Specific Colors
Red sleeves ideal for gasoline applications and green sleeves ideal for diesel applications
