

GET BENT™ HOSE BENDER

Get Bent allows you to fill your container or tank with greater efficiency thanks to its unique design, which bends the hose perfectly and helps prevent wasteful spillage. It's easy to install, fits standard 1" hoses, and is constructed of heavy-duty petroleum-resistant ABS plastic.

Get Bent fits both VP Racing containers and U jugs*. It's intended for use with new hoses that are still pliable.

The built-in plug remover tool can also be employed to conveniently store and secure the white cap that comes with VP's Hose-Deluxe filler hose.

Precision pouring every time & prevents wasteful spillage

Installs in seconds

Heavy-duty construction. Petroleum resistant

Easy & Versatile

*** Note:** VP Racing containers and U jugs are solely intended for use with non-fuel or non-kerosene products and must not be used to transport fuel or kerosene. For storage and transport of recyclable automotive fluids, non-potable water, feed attractants and other outdoor products.

Description

VP Get Bent (12per case)
