

KURASYN 360X

Curcumin and Hyaluronic Acid Support Supplement

KURASYN 360X is a complementary feed supplement for horses containing highly bioavailable Curcumin combined with Hyaluronic acid.

It contains a fast acting Curcumin extract complexed with a naturally occurring oligosaccharide, and has significantly better absorption compared with standard Turmeric.

KURASYN 360X can be fed to horses as a nutritional adjunct:

- Before and after periods of physical stress.
- Continuously for horses in hard training and intense competition.
- For maintenance of normal joint function.
- During periods of rehabilitation from injury.

Instructions for proper use:

KURASYN 360X should be added to the normal feed ration.

Maintenance Feeding Rate is 25ml (Approx 0.85 fl oz) per day, but during periods of intense training and recovery feed 50ml (Approx 1.7 fl oz) per day.

Care should be taken feeding white nosed horses, as the product may stain - it is recommended to feed directly to the horse.

Ingredients:

Water, Sorbitol, Glycerine, Turmeric Root Extract, Citric Acid, Hyaluronic Acid (Sodium) (Fermented from corn), Potassium Sorbate, Sodium Benzoate, Sweet Orange Oil

Guaranteed analysis

	per 50 ml. (1.7 fl oz.)
