

USER MANUAL

1. Remove existing collection bags from hopper of the collection unit. (Not shown)
2. Drape the leaf bag opening over the collection unit with the logo facing up.
3. Pull the flap down over the front of the hopper and wrap the sides of the bag around the collection unit.
4. Tighten cinch cords equally on both sides, assuring that the front flap of the leaf bag is tucked inside. Wrap up excess cord to prevent from catching or tangling.

NOTE: Allow leaf bag to completely dry before storing.

⚠ WARNING

DO NOT reverse the tractor with the bag installed.

DO NOT operate if bag is not tightly secured to the hopper.

DO NOT allow any children on or near the unit.

DO NOT overfill the TerraKing Leaf Bag.

For dry leaf collection only, not for use with grass collection.

Before installing the bag, mow around all unusual areas blowing material out where it can be easily picked up.

CAUTION: Do not allow dry leaves to collect on the engine or muffler area of the vehicle.

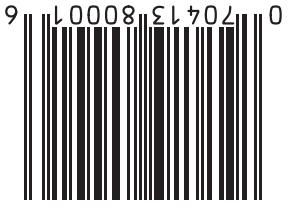

Push in on center loop of the cinching device and pull the end of the rope until taught.

Pull back on the center of the cinching device.

Limited Warranty

- 12 months from date of Purchase
- Items covered in Limited Warranty – defects in craftsmanship; sewing, seams, the drawstring, and the cinching device.
- Warranty does not cover tears due to the bag catching on roots, sticks, stones or other items within the yard.
- Any tears in leaf bag should be patched immediately (patch included)
- Iron On Patch Instructions:
 - Set the iron to a med/hot setting.
 - Be very careful with polyester fabrics, since applying the high heat necessary for ironing on patches can burn the fabric or cause it to get discolored.
 - Place the patch in the desired location and cover with a thin piece of cloth.
 - Iron and apply firm pressure evenly on the patch for approx 30-40sec.
 - Iron the opposite side for approx 20-30sec to reinforce.

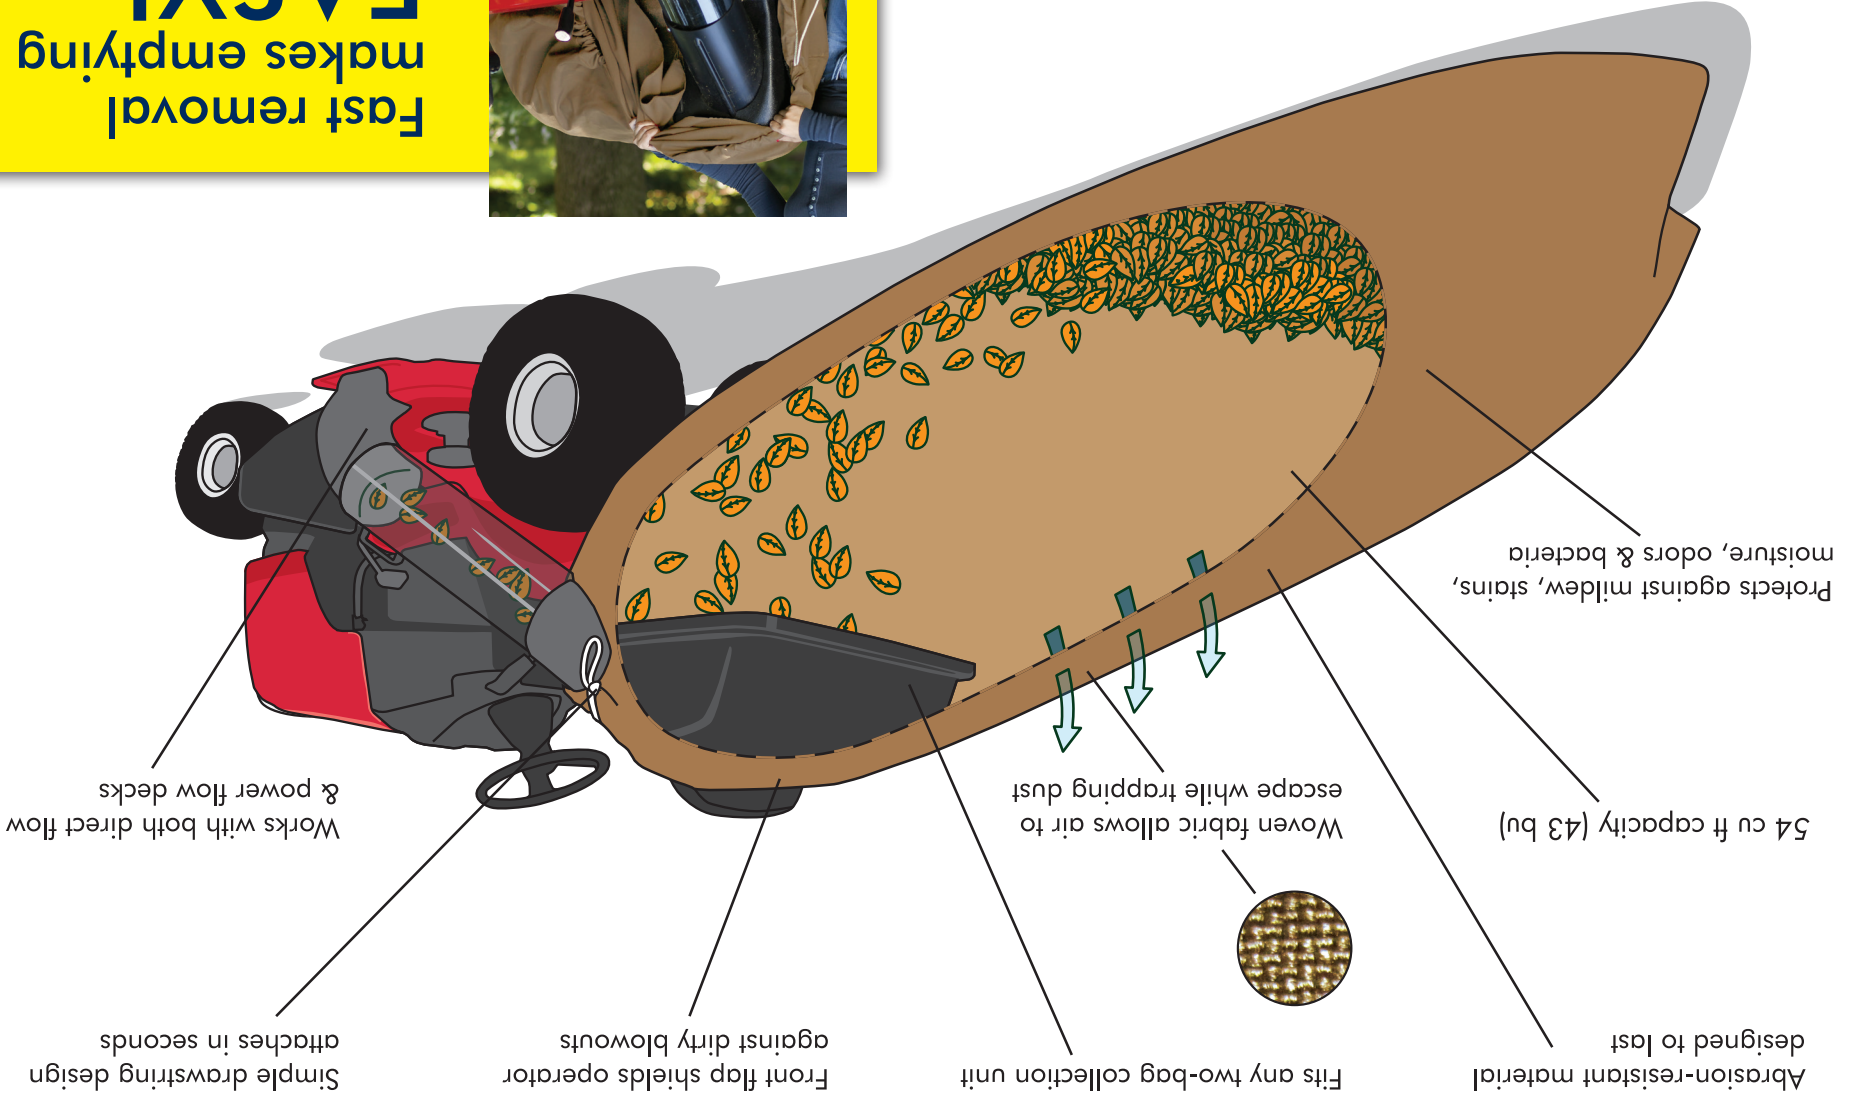

DESIGNED FOR LEAF PICKUP ONLY, WILL NOT WORK FOR GRASS COLLECTION.
