3+**
ADULT ASSEMBLY RECOMMENDED

BLOSSOM HOUSE TUNNEL INSTRUCTIONS

ASSEMBLY • INSTALLATION • MAINTENANCE • SAFETY

PLEASE READ ALL
INSTRUCTIONS BEFORE
SETUP OR FOLDAWAY OF
YOUR TUNNEL!

BEFORE YOU START: OBSERVING THE FOLLOWING STATEMENTS AND WARNINGS REDUCES THE LIKELIHOOD OF SERIOUS OR FATAL INJURY.

CAUTION: THIS STRUCTURE USES A SPRING STEEL LOOP THAT WILL POP OPEN QUICKLY!

- Caution must be used when handling this product.
- Small children should never be allowed to fold or unfold the structure without adult supervision.
- Do not place heavy objects on this product.
- Discard if steel loop is broken or if this product is damaged.
- If your tunnel does not sit evenly on the ground or if you notice bowing/curving, you may experience difficulty folding and storing your product. Bowing panels may be the result of a twisted inner spring loop. To correct, firmly run your fingers around the panels' edges (pink binding) of the product and where the spring loop is located. When you feel a twist or kink place hands on either side of it and pedal them backwards or forwards to untwist the loop and allow easier opening and folding.

This product comes in its folded/coiled form for packaging convenience. The box packaging should be kept for convenient storage of play tent when not in use.

- To maintain the vibrant coloring and durability of the material this product should not be left in direct sunlight or outdoors for extended periods of time.

WARNING: KEEP ALL FLAME AND HEAT SOURCES AWAY FROM THIS TUNNEL FABRIC.

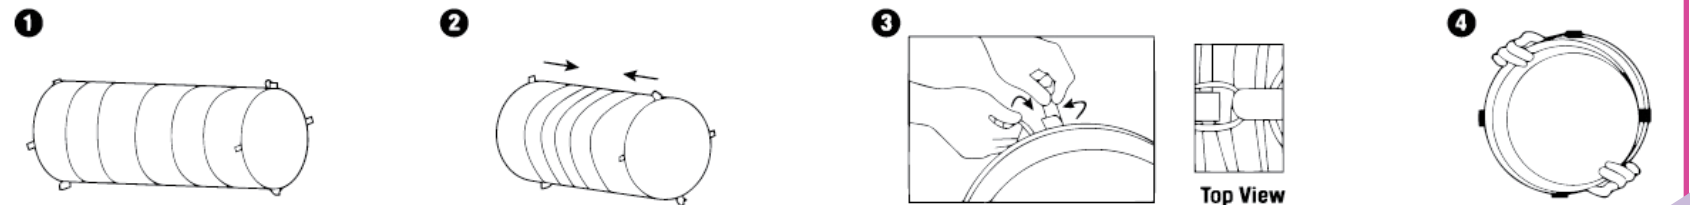

- This tunnel meets the flammability requirements of CPAI-84. This product is fire resistant only. This fabric may burn if left in continuous contact with any flame source. The application of any foreign substance to the tent fabric may render the flame resistant properties ineffective.

*Pairs perfectly with Blossom House Tent offered by M&M Sales Enterprises, Inc. Explore at: mandmsalesinc.com
