

PRODUCT DATA SHEET

FIBERFORCE

**High-fiber, low sugar & starch feed,
ideal for sensitive horses**

- > Easily digestible. Optimal gut health
- > Low sugar & starch
- > Energy from fiber and fat
- > High fiber

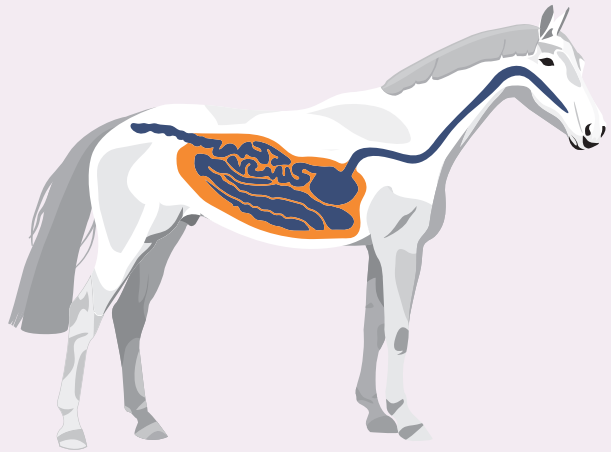

15 KG / 33 LBS

SPECIAL CARE

About FiberForce

Cavalor FiberForce is specially formulated for horses sensitive to starch and sugars, offering a safe, high-fiber feed to support metabolic health. This versatile muesli can also be used as a top dress to boost the fiber content of any ration, promoting healthy digestion and overall wellbeing.

What makes FiberForce unique?

Easily digestible.
Optimal gut health

Formulated with highly digestible extruded pellets for superior nutrient absorption. Added Pre- and probiotics to support a healthy gut microflora – essential for overall wellness.

Low sugar & starch

Designed to help maintain stable blood sugar and insulin levels, making it a safe choice for horses prone to metabolic issues like insulin dysregulation or laminitis.

Energy from fiber and fat

Delivers steady, slow-release energy from fat and fiber

High fiber

A premium blend of fiber sources—alfalfa, beet pulp, soy hulls, and long-stem fiber—promotes chewing, gut movement, and digestive health, building the foundation for strong immunity and overall vitality.

Advice

Feed as you need

The foundation of good nutrition for your horse is adequate forage and access to fresh drinking water. Supplement this base with concentrates or a balancer depending on the individual nutritional needs of the horse. Use supplements to fine tune your feeding program.

Feeding recommendations for Cavalor FiberForce

We recommend a minimum of 0.45 lbs to a maximum of 0.65 lbs per 100 lbs body weight per day. For a 1000 lbs horse this means a minimum of 4.5 lbs and a maximum of 6.5 lbs per day. Divide the concentrate feed over several portions per day, preferably after feeding forage.
