

A man and a woman are standing in a snowy forest, smiling at each other. The man is wearing a rust-colored jacket over a black hoodie, and the woman is wearing a light grey jacket over a black top. Both jackets have the 'action heat' logo on the chest. The background consists of snow-covered evergreen trees.

action heat™

BATTERY HEATED APPAREL

LESS LAYERS.
MORE WARMTH.

TURN ON. **WARM UP.** CHARGE UP.

Welcome to the future of heated clothing. Developed by industry experts, ActionHeat™ is the most comprehensive and versatile heated apparel brand on the market.

We pride ourselves on the rigorous testing of our heating elements and batteries, to bring you heated garments with top-rated heating performance and superior safety standards.

Whether you are on the ski slopes, walking the dog, at a ballgame, hunting, or simply relaxing at home ActionHeat™ Battery Heated Apparel will keep you warm and toasty when you need it the most. ActionHeat™ allows you to stay warm and enjoy outdoor winter activities longer than ever before!

TECHNOLOGIES WE OFFER

Depending on your customers needs, they can choose which heated product, power source & price range is best suited for them.

PRICE TIER A \$29-\$59

- + Most affordable & giftable option
- + AA battery power packs with simple on/off button

PRICE TIER B \$70-\$130

- + Lower powered system allowing for more price-point capabilities
- + Sleek rechargeable battery packs with touch-button that controls 3 temperature settings
- + Batteries feature 4 LED indicator lights which display battery life as well as current heat setting
- + Wireless remote for easy access to 3 heat level settings

PRICE TIER C \$90-\$250

- + Most versatile USB system provides the easiest customer experience
- + Ultra-slim rechargeable USB power banks with dual USB ports can power our heated gear & charge USB devices such as phone or camera at the same time
- + On board temperature touch-button gives easy access to 3 adjustable temperature settings
- + Unique "Ghost-Mode" switch located on the control button easily turns the LED light off, while keeping the heat on

- + Higher battery capacity provides more heating coverage over a larger area
- + Rechargeable battery packs for unlimited convenience
- + On-board temperature control button features battery life LED indicators & easy access to 3 temperature settings

GHOST-MODE TOUCH-BUTTON CONTROL

Stay warm & stay hidden with our patent pending Ghost-Mode Technology! Created to give the user the advantage of invisibility while on a hunt, or simply to enjoy the warmth in the dark, the brand new "Ghost-Mode" allows the user to turn off the LED light on the control button, while maintaining the current heat setting!
