

# TRUEHEPA

## REPLACEMENT AIR FILTER

Designed to work with the PureZone Halo air purifier from Pure Enrichment, this True HEPA replacement filter will keep your unit operating at maximum efficiency so your home stays allergen-free. Replace every six months for optimal performance.

### INSTALLATION IS EASY AS 1-2-3

1. Open the front cover of the air purifier from the top and remove the old filter by pulling the strips on both sides of the filter.
2. Insert the new filter into the unit. Make sure the strips are installed outwards and the black pre-filter is facing the front cover.
3. Reattach the front cover and securely latch into place. Then, press and hold the power button for 3-5 seconds to reset the Reset light.
