

Installation is easy as 1-2-3

- 1 Open the front cover of the air purifier from the top.
- 2 Use the strip at the bottom of the old air filter to pull it out and discard. Insert the new air filter making sure the gray pre-filter and strip at the bottom are facing the front cover.
- 3 Reattach the front cover and securely latch it into place. Then, press and hold the power button for 5 seconds to reset the Filter Change Indicator light.
