MISTAIRE XL

ULTRASONIC COOL MIST HUMIDIFIER

USER MANUAL
MODEL: PEHUMLRG-RT1

WARNINGS AND PRECAUTIONS

READ THIS ENTIRE INSTRUCTION MANUAL BEFORE OPERATION. BE SURE TO COMPLY WITH ALL “CAUTIONS” AND “WARNINGS”. FAILURE TO ADHERE TO THE FOLLOWING INSTRUCTIONS CAN CAUSE HARM TO YOU OR THE DEVICE.

Only use product as outlined in this manual. Using the humidifier for unintended purposes may result in serious injury.

- **CAUTION:** To reduce the risk of burns, keep this product out of the reach of children and pets.
- Disassembly, repair, or remodeling by an unauthorized person may result in serious harm and will void the manufacturer's warranty.
- Always place this humidifier on a firm, flat, and level surface. This humidifier may not work properly on an uneven surface.
- Do not place this product on cloth, carpet, or an absorbent surface. This may block air inlet.
- This product releases mist. Do not place this humidifier directly on wood furniture, flooring, or any surfaces that could be damaged by water. Manufacturer does not accept any liability for damage in the case of the unit being placed incorrectly.
- Do not use if the plug is damaged or loose.
- Before filling or cleaning the unit, make sure it is unplugged.
- Once the humidifier has been plugged in, do not tilt or move the unit.
- Do not remove the water tank from the unit while it is on.
- Do not handle the plug with wet hands.
- Do not excessively bend, twist, pull, or damage the power cord.
- Avoid placing this product where the humidity spout is pointed directly at an object or person.
- Do not inhale the mist/vapor that is expelled from the humidifier or drink water from the tank.
- Do not fill the water tank with hot or boiling water.
- Do not use this product in direct sunlight or near a heat source such as a stove, heater, or radiator.

WARNINGS AND PRECAUTIONS (CONT'D)

- If the water tank becomes cracked or damaged, do not use.
- Do not keep this product running unattended for an extended period of time. Never leave it running unattended around children.
- Unplug the cord when the unit is not in use for an extended period of time and/or when no one is home.
- Do not keep water in the tank when not in use for an extended period of time.
- Use only the cleaners and additives recommended on Pages 9-10 of this manual to clean the water tank.
- The use of water additives including essential oils, fragrances, eucalyptus, water conditioners, etc. will damage the appliance materials, and as a consequence, the whole unit.
- Do not use this product near any other electronic device.
- Do not cover the mist nozzle at any time during use.
- Do not put anything on or in the tank.
- When unplugging from an outlet, hold the humidifier securely.
- Do not place the cord over objects.
- Do not get water in or on the power cord or where it connects to the product.
- Do not use when plugged in near a sink.
- Do not touch the water tank during operation.
- Do not submerge the unit in water or pour water on the unit or in the humidity spout.
- When emptying water from the water tank, pour on drain side.
- Do not cover the humidity spout with a cloth or hand and do not use without the humidity spout.
- Use clean or distilled water in the tank. Hard water areas will require more frequent cleaning.

FCC NOTICE

Model: MistAire XL Ultrasonic Cool Mist Humidifier (PEHUMLRG-RT1)

This device complies with Part 18 of the FCC rules.

Pure Enrichment
2803 S Yale St
Santa Ana, CA 92704
pureenrichment.com

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. The equipment should be maintained as discussed in this manual. Changes or modifications not expressly approved by Pure Enrichment will void the user's authority to operate the equipment. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult dealer or experienced radio/TV technician for help.

INTRODUCTION

Power:	120V, 60Hz, 25W
Max Room Coverage:	Up to 450 ft ²
Run Time:	High: 15 hours; Low: 58 hours
Tank Capacity:	1 Gallon (3.7 Liters)
Moisture Output:	>250 ml/hr, 1.5 gallons per day
Noise:	<32dB

USING THE HUMIDIFIER

SETUP

Before you set up the humidifier, select a location that is firm, level, and flat. For proper airflow, the location should be at least six inches from the nearest wall or object. Place the humidifier on a water-resistant surface, as water can damage furniture and some flooring. Do not place unit directly on carpet, towels, blankets or other absorbent surfaces.

Pure Enrichment will not accept responsibility for property damage caused by water spillage.

1. Separate the tank from the base of the unit.

2. Flip over water tank and open the tank lid, turning it to the left.

3. Pour cool, clean water directly into the tank. Do not pour anything but water into the tank.

4. Close the tank lid, turning it to the right. It is important to FIRMLY secure cap after filling the tank with water.

5. Attach tank to base of unit.

NOTE: Make sure there is water in the unit before turning it on.

FUNCTIONS & FEATURES

Power/Variable Mist Control Knob

Turn the dial to the right to turn the humidifier ON. Turn it to the left to turn the unit OFF. The amount of mist output will increase as you turn the dial to the right and decrease as you turn it to the left.

LED Night Light Button/Power Indicator/Waterless Indicator

The power indicator light will illuminate in blue when the power is on. When the unit is low on water, the light will turn red, and the unit will shut OFF. Simply add more water to continue to use.

When the unit is turned ON, the night light button will work as follows:

1st press: blue light ON

2nd press: green light ON

3rd press: red light ON

4th press: light OFF

NOTE: Turning the unit ON does not automatically turn on the night light. You must first press the LED night light button.

Single and Dual-Mist Nozzles

Choose either the single or dual-mist nozzle based on how much moisture output you want. Both nozzles can be rotated 360 degrees by manually turning the spout.

Cleaning Brush

The humidifier includes a cleaning brush that should be used to keep the transducer free from dust and debris.

Humidifier Tank

When the humidifier water tank is removed from the body of the unit the power automatically shuts off.

CLEANING

Always unplug the humidifier before servicing it in any way.

General Cleaning

- **Inside the base of the unit.** Pour excess water out of the unit. Wash out the unit with fresh water using the cleaning brush and a soft cloth as needed. Do not submerge the base of the unit into water, or allow water to enter inside the dry air exhaust port of the unit.
- **Water tank.** Empty water tank. Remove mist nozzle and clean the mist tube with fresh water and a bottle cleaning brush (not included).
- **Outer surface of the unit.** Wipe the surface of the unit with a soft, damp cloth if needed. If you notice an accumulation of water during usage, reduce humidity and dry outer surface with a cloth.

Descaling

- Depending on usage and water type, cleaning to remove scale may be required weekly or every other week to optimize unit performance.
- If you live in a hard water area, we recommend distilled water for your humidifier to help reduce the precipitation of minerals or white dust.
- Do not clean the unit or water tank with harsh detergents or cleaning chemicals. A decalcification cartridge or humidifier cleaner capsule may be used to keep the water tank free of hard mineral deposits.

Transducer

1. Unplug the humidifier.
2. Remove the tank and empty all water from unit base and tank.
3. Locate the transducer using the diagram on page 6.
4. Use ONLY the enclosed cleaning brush to gently clean and remove build up and deposits.

NOTE: Do not scrub or scrape the transducer.

CLEANING (CONT'D)

If scale becomes difficult to remove with brush:

1. Fill the Base with: mixture of 1 tsp. white vinegar and 1 tsp. water.
2. Let solution stand for 5 minutes.
3. With the vinegar in the base, clean all interior surfaces with a soft cloth or brush to help remove scale.
4. Also check mist nozzle and mist tube in water tank. Clean as needed.
5. Rinse the Base thoroughly with water to remove scale and vinegar solution.
6. If minerals in your water are producing a white dust, you may use a decalcification cartridge or humidifier cleaner cartridge to keep the tank clean.

END OF SEASON STORAGE

- Follow the General Cleaning and Descaling instructions when the humidifier will be stored at the end of the season.
- Dry the humidifier completely before storing. DO NOT store with water inside the base or water tank.
- Pack the unit in its original carton and store in a cool, dry location.

NOTE: IF YOU EXPERIENCE A PROBLEM DO NOT ATTEMPT TO OPEN THE MOTOR HOUSING BY YOURSELF. DOING SO MAY VOID YOUR WARRANTY AND CAUSE DAMAGE TO THE HUMIDIFIER OR PERSONAL INJURY.

TROUBLESHOOTING

If you are having problems with your humidifier, see if one of the solutions below can resolve the problem before contacting the manufacturer.

Problem	Solution
Water vapor and humidity are not being produced.	Power plug: Unplug and then try again. Power failure: When power returns, try again. Tank installation: Ensure tank is attached properly. Dirty ultrasonic disk: Clean disk (see pg. 9).
Air blows but water vapor is not produced.	Excessive water: Pour out extra water. Residue inside tank: Wash tank and try again. Dirty ultrasonic disk: Clean disk (see pg. 9). If you use hard water, replace with softer water.
Humidity level is low.	Dirty ultrasonic disk: Clean disk (see pg. 9). Water in unit is too cold: Replace with cool water.
The humidity has a bad smell.	Poor maintenance or dirty water: Clean humidifier thoroughly, and fill with fresh water.
White dust is forming on nearby furniture.	Hard water may deposit a certain amount of dust: Dust in the air also settles because of added humidity in the room. Use distilled water if it persists.
Unit has stopped working.	No or low water: Unplug unit and refill tank. Saturation of humidity: Lower mist control setting. Unit not level and water is accumulating: Unplug and place on level surface. Point spray away from objects: Raise unit on a water-resistant level surface 2-3 feet off of floor.
Water dripping when refilling.	Water remaining on bottom of tank: Wipe tank or tilt to drain before transporting.
Increased noise level.	Unit must be placed on a flat, level, hard surface: Make sure it is NOT placed on a soft or absorbent surface.
Red light on power dial.	Red LED light indicates low water: Unplug and refill tank.

WARRANTY

MistAire XL comes with an industry-leading 5 Year Warranty that begins on the date of purchase.

The warranty applies to the humidifier and necessary parts and labor relating thereto. The warranty does not apply to damage resulting from failure to follow the operating instructions, accidents, abuse, alterations, or disassembly by unauthorized individuals.
