UltraFork

Patent Pending Part No. B5330303
SKU No. 33030300

The UltraFork easily lifts debris and objects around the workplace and home. Three to five tines are perfect for round or square hay bales. Seven tines for unlimited applications including wood, manure, rocks and more.

Also works great for de-icing hard packed snow, removing frozen manure, making trails for logging, hunting clubs, park and recreation, storm cleanup and clearing brush from roadways.

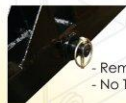

Comes with:

- Three Tines (32" Long)
- Two Lift Arm Pins

3 Attachment Options:

- Skid Steer Quick Attach System
- 3-Point Hitch System
- Quick Hitch

Ships flat for cost savings

- Remove Tines in Seconds
- No Tools Required

Additional Tines available for purchase
