

POULTRY NUTRI-DRENCH®

Increase Profits and Flock Production!

Finally, results you can see!

Backed by 20 years of research, field trials and 2 U.S. Patents

Poultry Nutri-Drench is specifically formulated for all poultry. Our approach to promote overall health is to boost the immune system **FAST!** Nutri-Drench shunts directly to the bloodstream, eliminating the hours needed for digestion. **Nutri-Drench can be measured in the bloodstream in minutes, with 99% utilization.**

Get off to a faster, stronger start by increasing nutritional uptake!

"Nutri-Drench is the only nutrition used outside the feed. It takes the stress out. It gives birds a better start. It helps the immune system plus it helps with shipping. I also give a dose before we vaccinate."

Lonnie Osman, L & S Farms, Rudy, AR

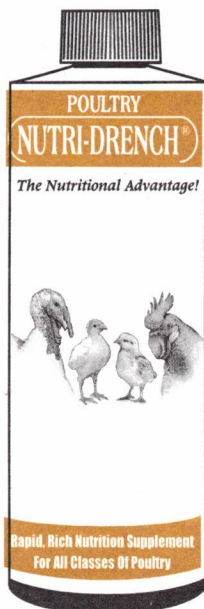

"I have less mortality and heavier birds at the end of grow out."

William Truman II, Atlanta Poultry Show

"Poultry Nutri-Drench gives me better production, yield and return. I use it from the 1st day up to 12 days. Plus, Nutri-Drench helps with extreme heat."

Scott William, Riverview Farm, Calhoun, GA

**Appetite • Poor Hatchability
Laying Hens • Weak Newborns
Extreme Weather Conditions
Shipping Strain • Heat Stress
Diarrhea • Disease
Vitamin Deficiencies
Regular Preventive Care
All Benefit From Supplemental Nutrition**

Balanced nutrition is important for growth, reproduction and resistance to disease. Stress can be caused by a number of factors, however, poultry hide problems very well until stress becomes critical. In all cases, **fast** replacement nutrition is important or poultry can go into shock and die.

Even disease is difficult to diagnose. When poultry begins to show obvious signs of illness, they are already seriously ill. Balanced, replacement nutrition should be used concurrently when antibiotics are administered.

Poultry Nutri-Drench is the only supplement that does not require digestion. It is the fastest replacement nutrition possible, with 99% utilization.

STRESS DOSE:

AUTOMATIC PROPORTIONER MIXING INSTRUCTIONS:

Deliver at 4 oz./gal. Prepare fresh stock solutions daily.

Age	Stock	Consumption	DRINKING WATER MIXING: (oz./ gal.)
	Solution:	Rate:	
1-4 days	1 gal./ gal.	1:32	4 oz./ gal.
5-14 days	2 qts./ gal.	1:64	2 oz./ gal.
2-4 weeks	1 qt./ gal.	1:128	1 oz./ gal.
4-6 weeks	1 pt./ gal.	1:256	1/2 oz./ gal.
6 weeks plus	1/2 pt./ gal.	1:512	1/4 oz./ gal.

SHIPPING STRESS: Administer on arrival. Not necessary to use daily.

LONG TERM/MAINTENANCE DOSE: 2-5 mL (cc) per gallon of water, depending on weight of bird & climate temperature. Adjust as needed.

Contains Only Natural Nutritional Ingredients

MONEY BACK GUARANTEE
