

LOW LEVELS

Fly Baits and Abatement Strips You Can Count On

Starbar® fly baits and abatement strips are for use at low levels of your operation. We know flies feed near ground level, which is why Starbar® fly baits and abatement strips use a sugar base in combination with various attractants to encourage flies to feed. That's targeted fly control based on science.

Featuring a range of active ingredients, Starbar® fly baits can be used together as part of a rotational program to combat fly resistance.

Application Sites

Spread scatter baits and place strips at low areas of your operation and along open floor spaces that are out of reach of livestock, pets and humans.

Insect Control Starts with Starbar

Insects on your operation are a nuisance to you and your employees, but they also pose a threat to your animals and property, causing significant economic losses. That's why it is so important to set the bar for insect control using Starbar® products.

Homes, small farms and commercial operations have trusted Starbar® products to control insects for more than 40 years. As an industry leader, Starbar has a mission to provide effective pest control solutions.

With Starbar® products, you'll be equipped to set the bar at every level.

A HIGHER LEVEL OF CONTROL

By using Starbar® baits and abatement strips near the ground, you'll set the bar for insect control at the **low levels** of your operation.

For more information on setting the bar for insect control at other levels of your operation, visit StarbarProducts.com or contact a Central Life Sciences representative at 1-800-347-8272.

Starbar® Fly Baits and Abatement Strips

Set the Bar for Insect Control at the Low Levels of Your Operation

QuikStrike® Fly Bait

With the active ingredient dinotefuran, QuikStrike® Fly Bait kills nuisance house flies quickly and controls those resistant to carbamates and pyrethrin sprays. Its homogenous formulation contains (Z)-9-tricosene to attract flies and can be used as necessary where flies are a problem.

Prod. #	Prod. Desc.	Case Qty.
100508299	1 lb. can	12
100508298	5 lb. can	6
100508297	40 lb. bucket	1

Golden Malrin® Fly Bait

The standard in fly baits for more than 40 years, Golden Malrin® Fly Bait draws flies in to feed with Muscamone® fly attractant. Golden Malrin® Fly Bait features the active ingredient methomyl to help offer effective control.

Prod. #	Prod. Desc.	Case Qty.
100527078	10 lb. bucket	1
3006197	40 lb. bucket	1

Cyanarox™ Insecticidal Bait

Cyanarox™ Insecticidal Bait, a ready-to-use granular bait to control house flies, contains the active ingredient cyantraniliprole. It is both highly attractive and highly effective in controlling house fly populations. Cyanarox™ Insecticidal Bait can be used indoors in a bait station and outdoors in common areas where high fly densities are most apparent. Cyanarox™ Insecticidal Bait can also be used in rotation with QuikStrike® Fly Bait and Golden Malrin® Fly Bait to create a formidable, three-pronged rotational approach to manage against resistance.

Prod. #	Prod. Desc.	Case Qty.
100535456	4 lb. bucket	4
100535457	28 lb. bucket	1

Starbar® Fly Bait Station

For use when scattering QuikStrike® Fly Bait, Golden Malrin® Fly Bait or Cyanarox™ Insecticidal Bait is not desired, the Starbar® Fly Bait Station holds 2 oz. of bait and has a built-in tray that catches dead flies after they feed. It can be used with any of the three fly bait products.

Prod. #	Prod. Desc.	Case Qty.
3006166	Bait Station	12

QuikStrike® Fly Bait, Golden Malrin® Fly Bait, and Cyanarox™ Insecticidal Bait can be used in rotation as part of an integrated pest management (IPM) program to fight flies and resistance.

QuikStrike® Fly Bait Spray

Fast-acting QuikStrike® Fly Bait Spray easily covers walls and other surfaces in and around dairy, swine and poultry operations, and other livestock facilities, attracting and quickly killing house flies in hard-to-reach places scatter baits can't penetrate.

Prod. #	Prod. Desc.	Case Qty.
100530429	5 lb. can	6
100519873	40 lb. bucket	1

QuikStrike® Fly Abatement Strip

The QuikStrike® Fly Abatement Strip contains a triple-action attractant and a unique active ingredient that kills flies seconds after they begin to feed. Since flies feed low, simply place the device four feet from the ground or lower for ideal control. The QuikStrike® Fly Abatement Strip can be used throughout any operation (including milking parlors) where flies are a problem.

Prod. #	Prod. Desc.	Case Qty.
25100D	Abatement Strip (2-pack)	12
