**Step 1**

- Attach the lying plates(#9 & #12) and posts(#17 #20 #19 #21 #22 #23) with thread rod,M8\*80mm(#28).

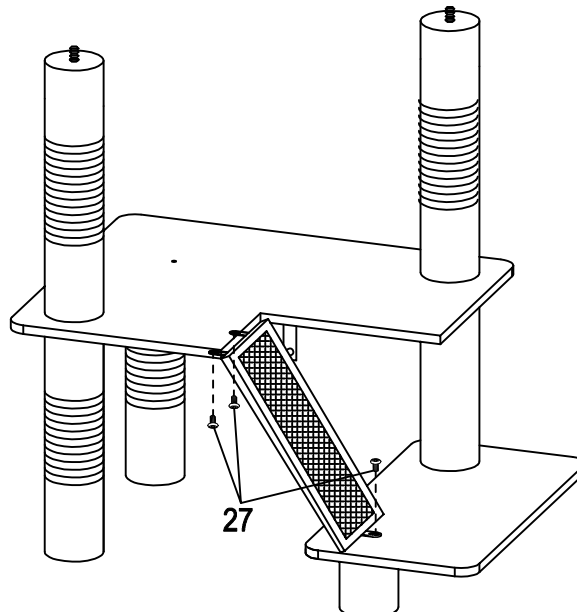

**Step 2**

- Assemble upper scratching board 11.2"(28.5cm) length(#13) with connecting bracket(#31) and flathead screw,M8\*15mm(#27).

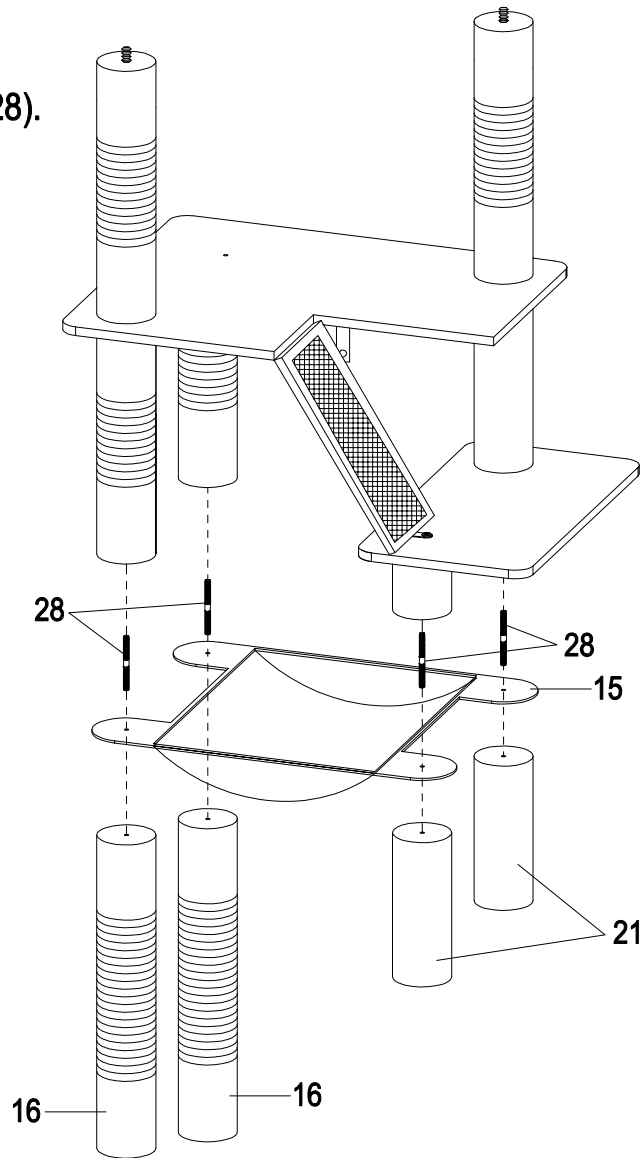

**Step 3**

- Attach upper scratching board 11.2"(28.5cm) length(#13) to the lying plates(#9 & #12) with flathead screw,M8\*15mm(#27).

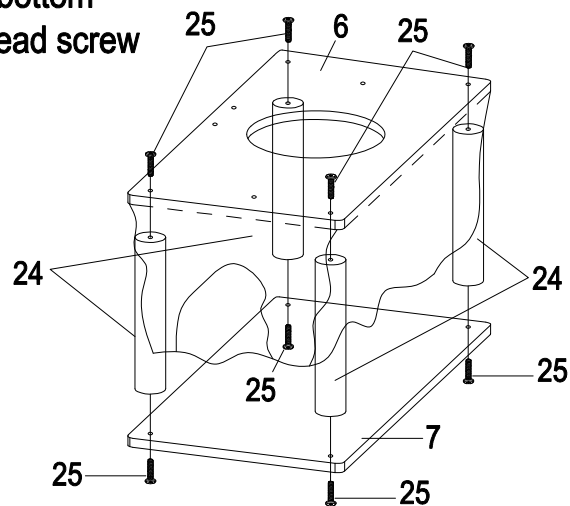

**Step 4**

- Assemble hammock(#15) and lower posts(#16 & #21) with thread rod, M8\*80mm(#28).

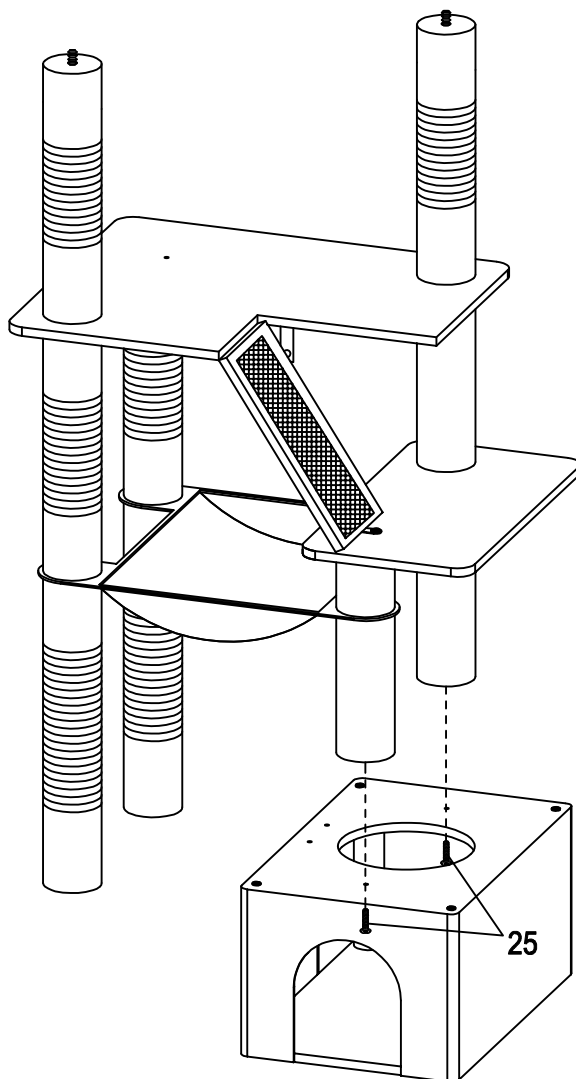

**Step 5**

- Assemble the rectangle cave(#6) & bottom board(#7) and posts(#24) with flathead screw. Make sure the edge of cover is well under bottom board(#7).

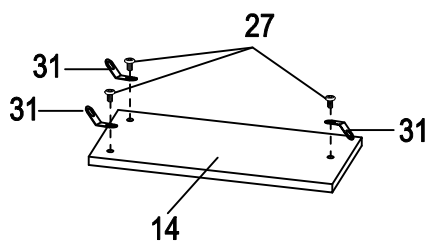

**Step 6**

- Attach the rectangle cave with flathead screw, M8\*40mm(#25).

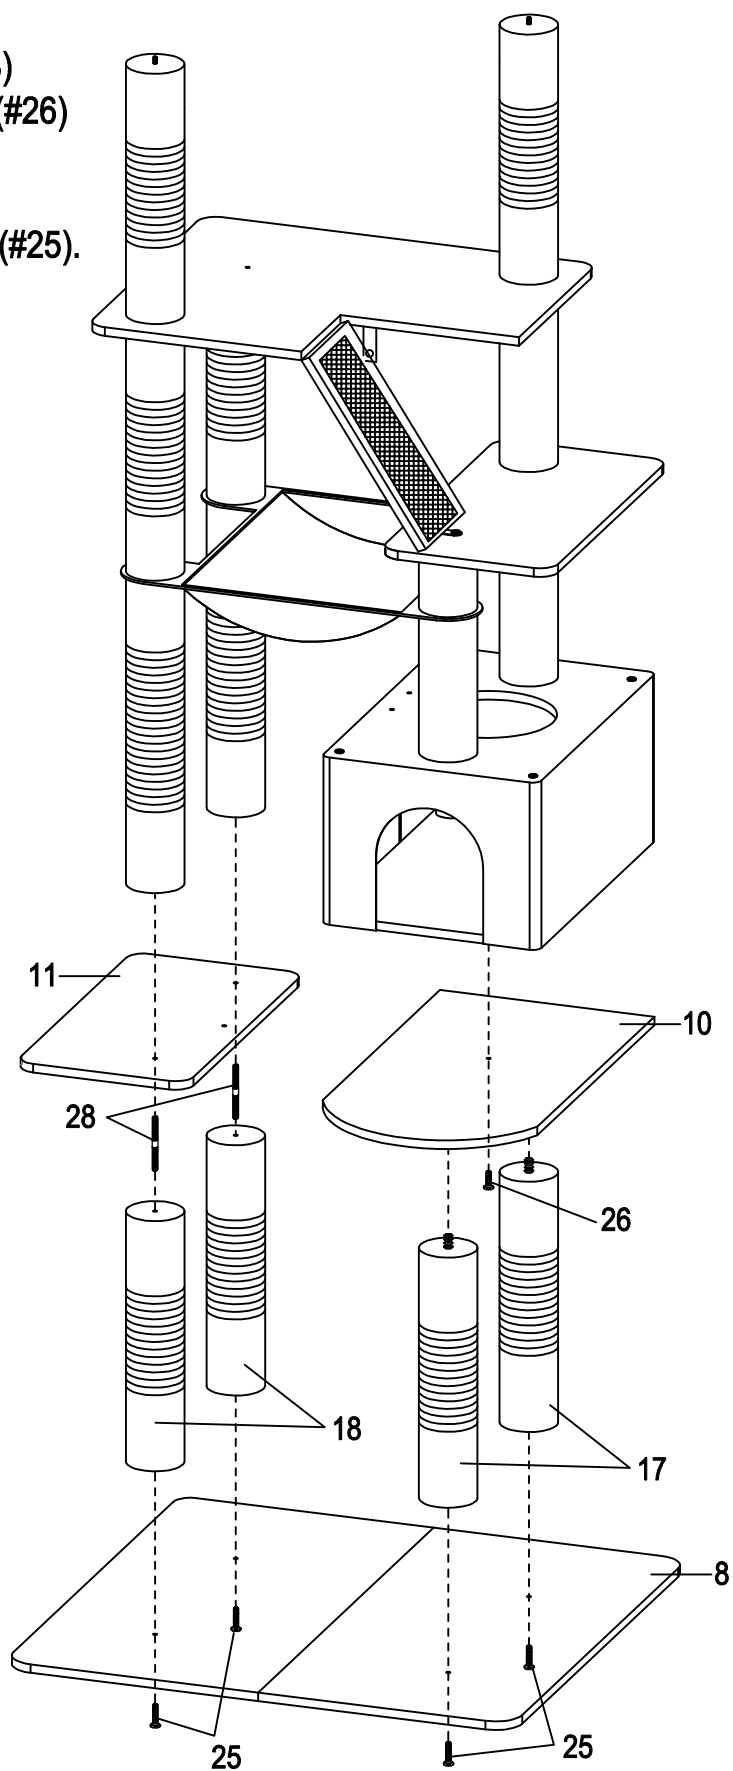

**Step 7**

- Assemble lower scratching board 13.6"(34.5cm) length(#14) with connecting bracket(#31) and flathead screw, M8\*15mm(#27).

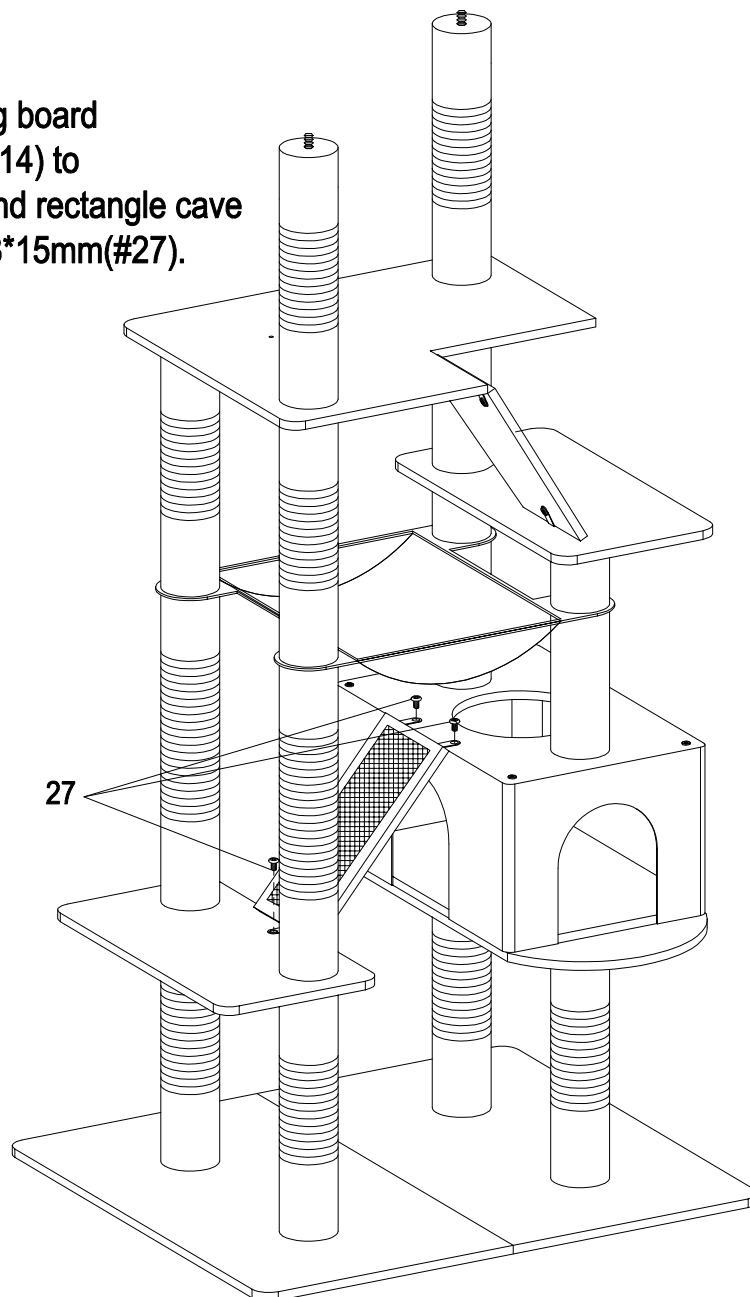

**Step 8**

- Assemble boards(#11 & #10) and posts(#18 & #17) with thread rod,M8\*80mm(#28) and flathead screw,M8\*28mm(#26). Attach the assembled units to the bottom plate(#8) with flathead screw,M8\*40mm(#25).

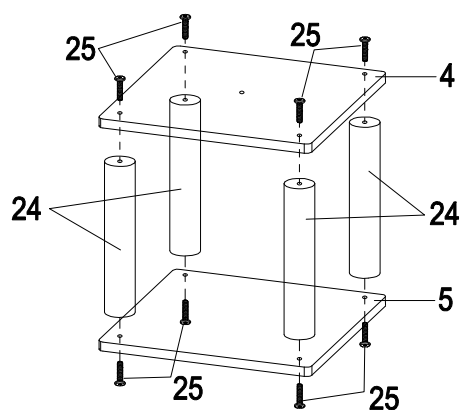

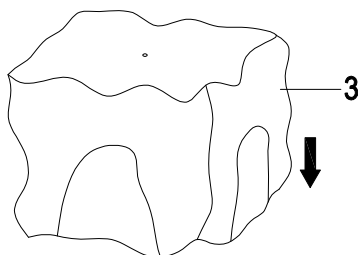

**Step 9**

- Attach lower scratching board 13.6"(34.5cm) length(#14) to the lying plates(#11) and rectangle cave with flathead screw, M8\*15mm(#27).

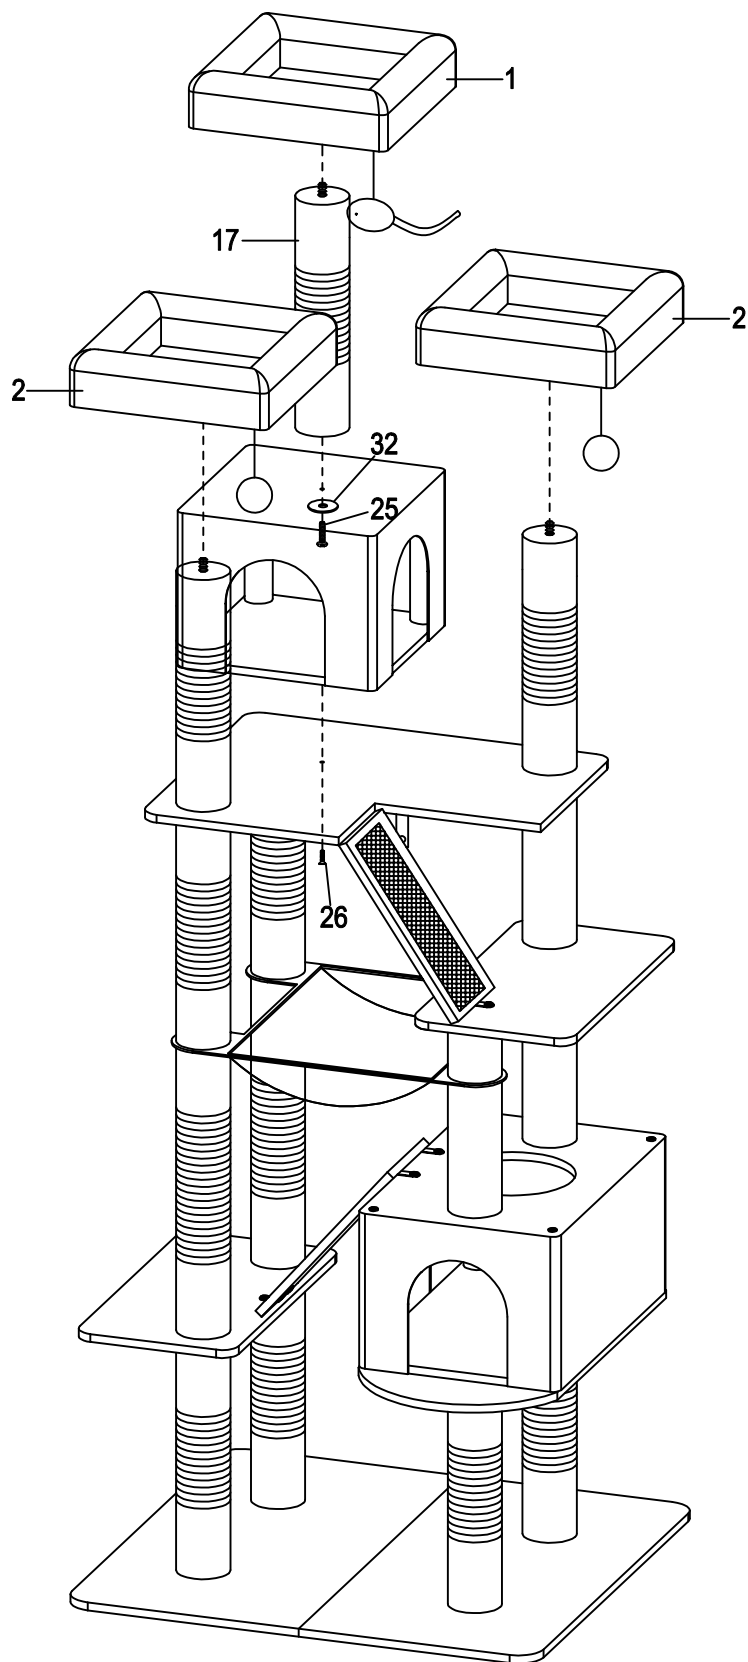

**Step 10**

- Assemble the boards(#4 & #5) with posts(#24) and square cave cover(#3) with flathead screw, M8\*40mm(#25). Make sure the edge of cover is well under bottom board(#7).

**Step 11**

- Attach the square cave to the lying plates(#9) with flathead screw, M8\*28mm(#26), and assemble square beds(#1 & #2) and posts(#17) with washer(#32) and flathead screw, M8\*40mm(#25).

**Step 12**

- Attach this product to the wall with wall plug(#30) and tapping rod,M4\*48mm(#29). Before you drill a hole in the wall, make sure there are no pipes or electric cables in the place you want to drill.
