

VoleX®

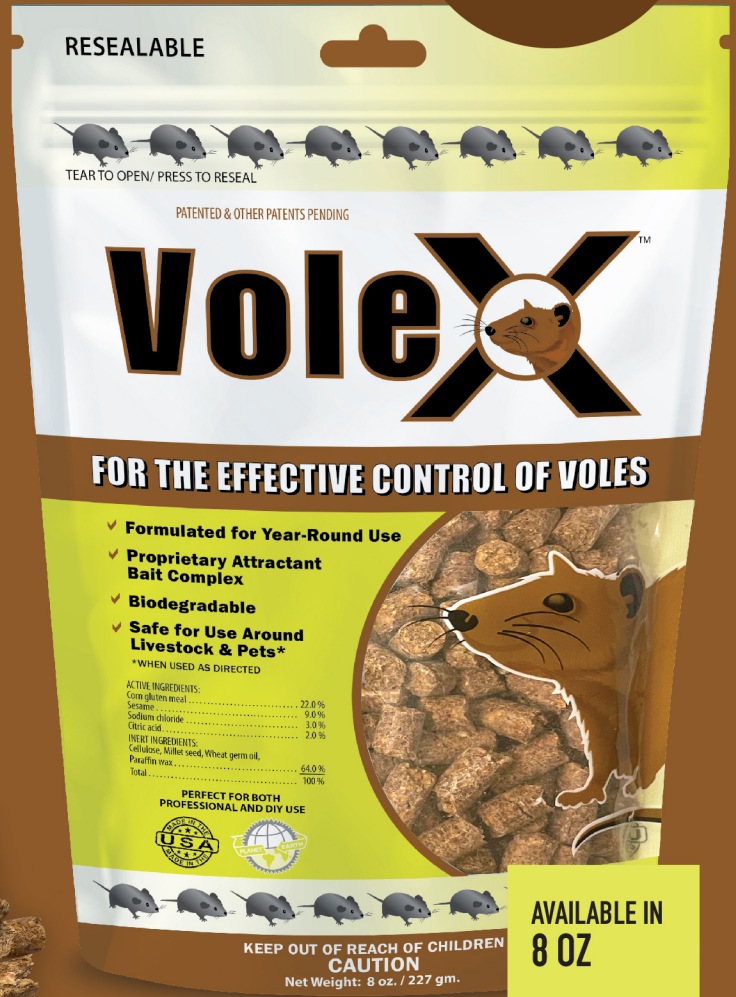

Formulated using naturally derived ingredients*, VoleX® is suitable for year-round use. VoleX® works from the inside out to exterminate voles, then dries them out after death to reduce odor by as much as 90%. Once ingested, active ingredients in the pellets coat the vole's stomach lining, blocking all messages from the stomach to the brain. This causes voles to stop wanting water, leading to eventual dehydration and death.
