

Step 1: Screw out the hanging board with the help of drill.

Step 2: Locate studs using stud finder (stud installation is recommended)

Step 3: Using a drill bit, pre-drill holes through the mounting bracket and into the wall.

Step 3: Attach the hanging board to the wall using provided long screws. Make sure it is leveled.

Optional: If you want to add the two feet, please add before step 3.

Step 4: Place the MANTEL onto the hanging board and drive the provided short screws straight down through the pre-drilled holes in the top surface of the mantel shelf.
