Ø6mm [Ø0.2"]

139mm [5.5"]

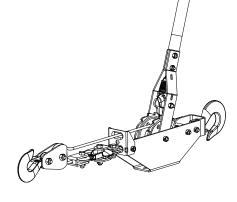

## **OPERATING INSTRUCTIONS** TO APPLY TENSION, engage the drive lever by pushing the shift lever (located above the drive lever) rearward until the spring is seated in the alt detent. Pivot handle assm back & forth to 109mm [4.3"] rotate ratchet wheel and take-up line tension. TO RELEASE TENSION, disengage the drive lever by pushing the shift lever forward until the spring is seated in the front detent. Pivot the handle forward until the drive & stop levers are in contact. Continue to apply pressure against the stop lever until it releases and then allow the handle to pivot back. Repeat this procedure to safely release the load a notch-at-a-time. TO FREEWHEEL SPOOL, release all of the line tension, manually disengaged the stop lever by pulling back on the exposed wire loop and unreel the desired length of cable. For replacement parts and technical questions, please contact Customer Service at 1-888-380-7428

## CABLE HOIST/PULLER

Model Number:10810001

- 1,500 LB. Lift Capacity
- 3,000 LB. Pull Capacity
- 12ft Single Line
- 6ft Double Line
