

PITTMAN

PPI-KIDMAT OWNER'S MANUAL

IT IS HIGHLY RECOMMENDED THAT YOU READ AND FOLLOW THE INFORMATION CONTAINED IN THIS MANUAL BEFORE INITIAL SET UP.

WARNING:

DO NOT LEAVE INFLATED WHEN NOT IN USE. OVER-INFLATION WILL OCCUR WHEN EXPOSED TO DIRECT SUNLIGHT.

⚠ IMPORTANT ⚠

BEFORE USING YOUR AIRBED:

- Inflate your airbed for several hours to allow the material to stretch naturally. The material will stretch the most after the first time you inflate it.
- As the material stretches, you may need to add more air for firmness. Your airbed is not leaking, it is the material stretching.
- Add air daily at first and less after a few days to maintain desired firmness.

SET UP GUIDE

Your Pittman air bed has a 2 Stage Valve for easy inflation and deflation

This Valve is constructed in three parts:

- A. Valve Cap
- B. Middle Valve
- C. Bladder Valve

To Inflate:

The middle valve (B) must be pushed in tightly to the bladder valve (C). The valve cap (A) must be removed from the middle valve (B) in order to inflate.

INFLATION

1. Place your bed on a flat surface free of debris, obstructions and sharp objects.
2. Spread the bed out so that it can fill easily. Allowing the bed to "unfold" itself may place an unnecessary strain on the bed and the pump.
3. Find the proper pump adapter fitting and insert into middle valve (B).
4. Turn pump on and inflate to desired firmness.
5. Once the desired firmness is achieved, shut the pump off and insert the valve cap (A) into the middle valve (B).
6. Your mattress is now ready to use.

OPTIONAL INFLATION PROCEDURE

For faster inflate, remove middle valve (B) from bladder valve (C). Locate and place the correct pump adapter on the pump and insert pump into bladder valve (C). Turn on the pump. Once the bed is almost fully inflated, power off the pump and insert middle valve (B) into bladder valve (C). Locate and place the correct pump adapter on the pump then continue filling using the middle valve (B). Once the desired firmness is achieved, shut the pump off and remove. Insert valve cap (A) into the middle valve (B) when finished.

DEFLATION

1. Pull out the middle valve (B) from the bladder valve (C).
2. Deflate until bed is fully deflated.
3. Fold bed according to Folding Instructions below and place into carrying bag and store until next use.

FOLDING INSTRUCTIONS

Upon complete deflation, lay bed on flat surface with sleeping surface facing upwards and fold according to the steps below.

CARE AND MAINTENANCE

1. Inspect your bed before each use.
2. Keep your bed away from any sharp or protruding objects. Large cuts, tears or snags may not be repairable and will not be covered by your warranty.
3. A repair patch kit has been included in case of incidental damage to your bed. Please follow repair instructions carefully.
4. When not in use store bed in a clean, dry place out of extreme temperatures.

CLEANING

DO NOT SUBMERGE MATTRESS IN WATER! For spot cleaning, use a clean damp cloth to wipe the surface of the mattress. Apply a clear liquid dish detergent without dye if necessary. Wet stained area thoroughly; gently massage stained area with detergent. Blot the area to remove staining substance. Rinse thoroughly and blot dry. Allow your bed to air dry completely after cleaning and before storing.

ADDITIONAL INFORMATION

IN CASE OF AIR LEAKAGE

Make sure valves are properly inserted to ensure leakage is not from loose valves.

A repair patch kit has been included for minor repairs. *(Includes patches and glue)*

REPAIRING AN AIR LEAK

1. Wipe bed with mild soap water over area to find possible air leak.
DO NOT SUBMERGE MATTRESS IN WATER! If there is a leak, bubbles will form around leakage area.
2. Follow cleaning instructions for leak area.
3. Use included patch kit to cut a suitable sized patch for leak. Make sure to round the edges of repair patch to avoid peeling.
4. Apply glue to patch area and around leakage area.
5. Press patch firmly over the puncture area.
6. Wait 24 hours before inflating.

To prevent patch from peeling while drying...

It is recommended to tape down patch edges with a light adhesive tape.

WARRANTY DISCLAIMER

Pittman Air Beds are warranted against defects in material and workmanship for a period of 90 Days from the date of purchase. Problems covered by the warranty include failure of the pump, seams or the valve. Punctures or wear to the mattress due to use or abuse are not covered. It is normal for an airbed that has been inflated for extended periods to require the addition of air after a few days. Air will be lost from the mattress through the material over time. Also, cooling of the air around the bed will cause the air inside the bed to contract, and the bed will be softer and may need refilling. To receive a replacement air mattress under Pittman Products International's 90 Day Warranty, you will need to:

- All returns must have a Returned Goods Authorization number (RGA). Every package must be clearly marked with the RGA number. RGA numbers are good for 30 days from the date of issuance. Products returned without viewable RGA numbers will be refused. No returns on special order, clearance or discounted items. Returned products are subject to a 20% Re-Box/Restocking fee. Products must be properly packed to prevent shipping damage. All returned product must be shipped pre-paid. The cost of transporting the product to Pittman Products International for warranty service/replacement is the responsibility of the purchaser.
- Send entire product to Pittman Products International with a letter stating:
 - The nature of the problem with the bed and the model number.
 - Your name, return shipping address and a daytime phone number.
- Send us a copy of the original sales receipt.
- This warranty is valid for the original retail purchaser from the date of the initial retail purchase and is not transferable.

The purchase date on the receipt must be within 90 Days of the date you ship the bed to us. Please ship the bed, letter and copy of receipt via courier (e.g. UPS, FedEx Ground) or Insured Post to:

Pittman Products International
Attn: Returns
650 South Jefferson Street
Suite D Placentia, CA 92870

Pittman Products International is not responsible for returned shipments lost in transit. You are encouraged to use a shipment system that offers you a tracking number. Please allow 6 to 8 weeks for replacement. Customer is responsible for all return shipping costs.

EXCEPT FOR THE EXPRESS LIMITED WARRANTY SET FORTH ABOVE, PITTMAN PRODUCTS INTERNATIONAL MAKES NO EXPRESS OR IMPLIED WARRANTIES IN THIS AGREEMENT OR OTHERWISE.
