## Peace of Mind Starts Here

Introducing Hubble Eclipse, the new Smart Wi-Fi Audio Monitor and Soother with multi-color night light and Bluetooth speaker. This new innovation from Hubble Connected is the ideal sleeping solution in both form and function. Featuring a unique, sleek cylindrical design, the soother comes with a selection of preloaded lullabies, soothing sounds, and audio stories, and serves as a Bluetooth speaker to use as your family grows. Using the Smart Sleep Trainer in the HubbleClub app, parents can establish a routine for “time to sleep” and “time to rise” with the option to link a chosen light color and sound for both functions. Ultimately, children will begin associating sounds and colors with bedtime or daytime, establishing a healthy sleep routine that will help build consistency in their waking and resting habits. Finally, use Eclipse as an audio monitor compatible with iOS or Android smart devices. The Eclipse Smart Soother & Wi-Fi Audio Monitor has won the Parents’ Pick Best Health and Safety product award.

Download the FREE HubbleClub App to manage your Eclipse Smart Wi-Fi Audio Monitor and Soother and get access to a large selection of soothing nature sounds, lullabies, and stories, as well as create personalized bedtime and wake-up routines to establish healthy sleep habits for your child. Personalize your nightlight color from the in-app color selector and monitor your baby via the 2-way audio function. Create personal audio recordings, control light sensitivity, and adjust the volume to ensure baby’s comfort. You can also access the Baby Growth Tracker to log each meaningful milestone along your baby’s journey. The HubbleClub app also gives you access to a library of parenting resources, membership into our Hubble Community for parents and additional content for both parents and children.

Hubble Eclipse. Peace of Mind Starts Here.
