## Peace of Mind Starts Here

Introducing the latest Hubble Connected breakthrough in emotional technology, the Hubble Eclipse+. An essential part of our new health line, Hubble's new Smart Wi-Fi Audio Monitor and Soother and Bluetooth speaker is a must-have for every nursery. Equipped with a multi-color night light, LED digital clock, preloaded lullabies, soothing sounds and audio stories, and audio monitoring capabilities, Eclipse+ ensures you and your little one is always safe and connected. Bring the portable and rechargeable Eclipse+ to any room in your home, and when the battery runs low, place the smart soother back on the charging dock and continue the soothing sound experience. At nighttime, help your baby develop strong sleep habits with the Smart Sleep Trainer function, which allows you to create customized "time to sleep" and "time to rise" routines for your child with personalized color and sound selection. Ultimately, children will begin associating sounds and colors with bedtime or daytime, establishing healthy sleep habits that will help build consistency in their waking and resting cycles. The Eclipse+ Smart Soothers & Wi-Fi Audio Monitor has been awarded the National Parenting Product Award and the Mom's Choice Award Gold.

Download the FREE HubbleClub App to manage your Eclipse+ Smart Wi-Fi Audio Monitor and Soother and get access to a huge selection of soothing nature sounds, lullabies, and stories, as well as create personalized bedtime and wake-up routines to establish healthy sleep habits for your child. Personalize your nightlight color from the in-app color selector and monitor your baby via the 2-way audio function. Create personal audio recordings, control light sensitivity, and adjust the volume to ensure baby's comfort. You can also access the Baby Growth Tracker to log each meaningful milestone along your baby's journey. The HubbleClub app also gives you access to a library of parenting resources, membership into our Hubble Community and additional content for both parents and children.

Hubble Eclipse+. Peace of Mind Starts Here.
