Peace of Mind Starts Here

Hubble Connected is thrilled to introduce Hubble Guardian+! This sleek, wearable device allows users to track their baby's heart rate, oxygen level, body temperature change, and movement from their compatible smart device. Guardian+ is designed with a soft fabric strap that is easily adjustable to provide a comfortable and secure fit on your little one's ankle. When it is time to charge, remove Hubble Guardian+ and place it on the charging dock, which also serves as an audio monitor and relaxing baby smart soother. Control all features that Guardian+ has to offer with the HubbleClub app. This app is also utilized with our smart Hubble Connected baby monitors, so you can control your entire monitoring experience under the same ecosystem!

Hubble Guardian+. Peace of Mind Starts Here.

What's in the box?

Guardian+ is not a medical device.

It is not intended to diagnose, treat, cure, or alleviate any disease or health condition, including, but not limited to, Sudden Infant Death Syndrome (SIDS). False positive or false negative readings about your baby's patterns are a potential risk.

This product is only intended to assist you in tracking your baby's wellbeing and is not intended to replace you as a caregiver. You are responsible for the health and wellbeing of your baby and should follow safe sleep, health, and care guidelines.

This product is not FDA approved.

To obtain optimal and safe user experience, please carefully read, understand, and follow all instructions and warnings prior to use. Also, read and follow recommendations from the American Academy of Pediatrics, including Safe Sleep guidelines found at www.healthychildren.org.
