THE **CAMLOCKER** IS A QUALITY ALUMINUM TOOL BOX THAT OFFERS THE **STYLE, PERFORMANCE AND DEPENDABILITY** YOU'D EXPECT FROM YOUR TRUCK

OUR STORY:

Robert (Papa) Swain knew there was a need for a more secure toolbox. After the one on his truck was broken into, with only a simple screwdriver, he was sure of it! That day in 1989, Papa Swain decided there had to be a better way to build a safe, secure toolbox. He wanted one that he could safely and easily store his equipment in while also providing peace of mind that it would still be there when he got back. A storage solution that was affordable to every person. After searching far and wide, he located the cam-style locking mechanism. Unlike the weaker paddle latch mechanisms, the CamLock system uses a revolving Cam that hooks through a welded catch to secure it in a closed position. Breaking in without a key would actually require the lid to be broken or the use of power tools.

After a short trial run, Papa was extremely happy with the results but hated the all too common aluminum dust messing up all of his tools and equipment. He wanted his camouflage to still be camouflage when he was ready to use it. So Papa set out to find a way he could entirely eliminate the dust altogether. This is why every CamLocker Toolbox is lined with felt carpeting that resists mold, mildew and everything you don't want. After inspecting this new development, it was only then that Papa was satisfied. Not only was his stuff safely locked up and weather proofed from the outside, short of total lid destruction, it was also set to resist threats from the inside as well.

After Papa's inspection and seal of approval, the birth of CamLocker had arrived. The company Papa founded, American Aluminum, has been building CamLocker Toolboxes for over 26 years along with police K-9 Units, Inmate Transports, Animal Control Units, Storage Vaults featuring the same cam-style locks, kennels, dog boxes and more! Our products have been used by all branches of the military, FBI, State & Local Law Enforcement Agencies, prisons, etc... In 2014 AAA, Inc. decided to take its specialty CamLocker Toolboxes national. In the first few years, toolbox sales have exploded everywhere the product was introduced. It is now the premier box in security and unprecedented style from coast to coast!

Like everyone else, we know you will enjoy your CamLocker toolbox for many years to come.

SLIDING TRAY

CAMLOCKER EXCLUSIVE FEATURES:

- Limited Lifetime Warranty
- CamLock locking mechanism keeps tools locked securely
- Key lockable chrome plated hefty carbon steel T-Handles
- Heavy Duty .063 gauge polished aluminum welded construction
- T-Handles open from either side for easy access
- Full length continuous stainless steel hinges
- Insulated lids outperform all others
- Weather sealed lids
- Comes with removable, sliding tool trays
- Completely carpeted throughout sides and floor
- Floor carpeting is removable for easy cleaning
- Polished aluminum or top-rated powder coat finish (matte or gloss black)
- Side mount boxes, emergency vehicle boxes and more
- Available in Classic, King, Deep & Wide, Extra Deep & Wide, and more
- Profile styles of Standard 6" or Low Profile 3"
- Also available in .125 for your most heavy duty jobs

CAMLOCKER

THE CAMLOCKER

The CamLocker Tool box by American Aluminum, is designed for the buyer who has the need for additional storage but doesn't want to compromise the style of their truck.

With chrome plated carbon steel T-Handles and a proprietary locking mechanism, the CamLocker is tough and good looking. Manufactured in the USA with stringent quality standards and designed by folks who use the product.

CamLocker is the toolbox of choice for those discriminating buyers who value both style and substance.

CAMLOCKER

AMERICAN ALUMINUM
ACCESSORIES, INC.

THE CAMLOCKER CLASSIC

The CamLocker Classic box is the perfect balance of style and substance. The carpeted interior, removable storage tray, choice of profiles and top-rated powder coat finish provide the style. The superior patented locking mechanism, hefty carbon steel T-Handles and heavy duty aluminum welded construction provide the substance.

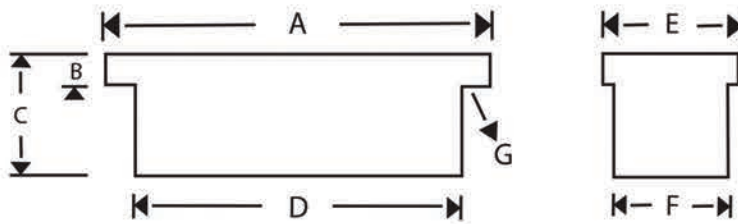

This box will turn heads all around and upgrade the image of your truck while providing secure storage to keep your valuables safe. The Classic box comes in various lengths and has profile options to make the fit into any style truck and not sacrifice the storage space.

The CamLocker Classic is one tough, good looking tool box!

CAMLOCKER CLASSIC SPECIFICATIONS

THE CLASSIC:

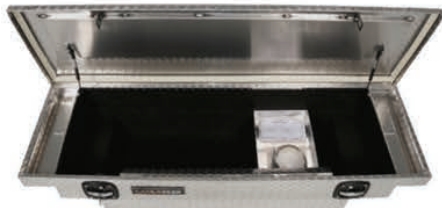

Measures 14" deep (lid included) x 20" wide. Available in lengths from 54" to 71" and comes in a 6" profile with a low profile option at 3". With our unique notching system of UN (Universal Notch) and FN (Full Notch) notches, we can ensure the proper fit for each year, make and model. Available finishes in polished aluminum, matte black (MB) or gloss black (GB).

THE CAMLOCKER KING SIZE

The CamLocker King Size box provides the style and substance of the Standard box with additional space for more tools and equipment. Measuring 19" deep (lid included), the King Size box adds over 25% more secure storage space.

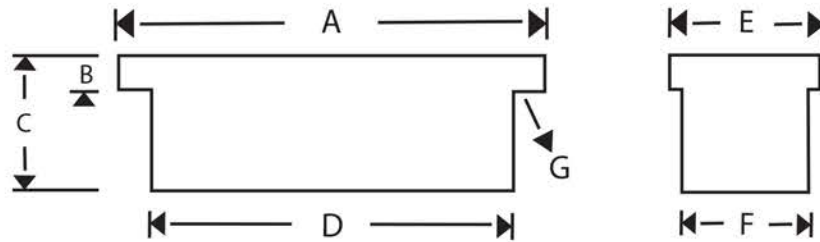

The various lengths and profiles allow you to customize the King Size box to fit your truck and the way you use your vehicle.

The King Size box is big, tough and good looking!

CAMLOCKER KING SPECIFICATIONS

THE KING:

Measures 19" deep (lid included) x 20" wide and is available in lengths from 54" to 71". The KING is available with the same profile options as the Classic CamLocker with the Regular profile at 6" above the rail and the LP at just 3". If needed, the same unique notching system can be applied to ensure proper fit.

THE CAMLOCKER DEEP & WIDE

The Deep & Wide (DW) adds 4.5" to the width and 2" to the depth above and beyond the Classic box. The Deep & Wide provides 30% more storage area than the Standard CamLocker box.

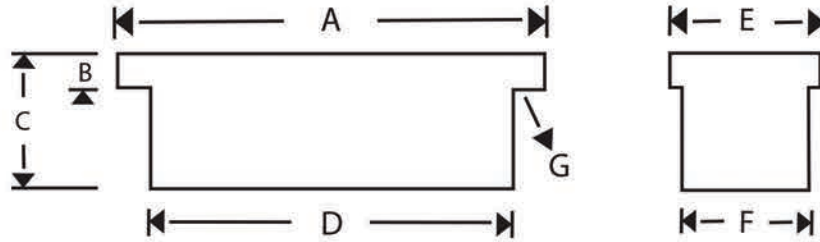

Providing the same stylish features of the Standard box and the security of the Cam-Lock, the Deep and Wide provides storage with a wider opening for larger tools and equipment.

The Deep & Wide box is bigger and tougher but with the same good looks you expect from a CamLocker!

CAMLOCKER DEEP & WIDE SPECIFICATIONS

THE DEEP & WIDE:

Measures 16" deep (lid included) x 24.5" wide and is currently available in the 71" length with other sizes soon to come. The same profile options are available at 6" above the truck bed-rail for the Regular and 3" for the LP. With the added width and depth, our UN (Universal Notch) and FN (Full Notch) notch systems are sure to provide the proper fit. Polished aluminum, matte black or gloss black are all available on the DW too!

DEEP & WIDE

THE CAMLOCKER XTRA DEEP & WIDE

The Xtra Deep & Wide box is the largest CamLocker you can buy adding 4.5" to the width of the Classic box and 5" to the depth. This makes the Xtra Deep & Wide a whopping overall dimension of 24.5" wide by 19" deep (lid included). The Deep & Wide box has 40% more storage area than the Standard CamLocker box.

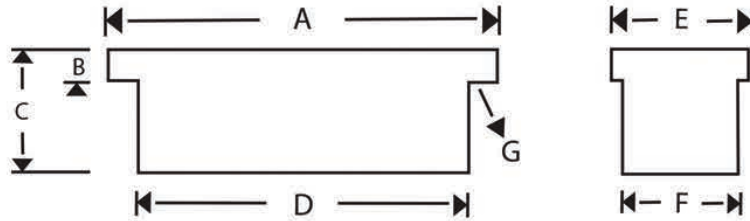

The Xtra Deep & Wide provides the same wider opening at 24.5" as the Deep & Wide but comes with 3" added to the depth.

The Xtra Deep & Wide box is the biggest, toughest and it's good looking!

CAMLOCKER XTRA DEEP & WIDE SPECIFICATIONS

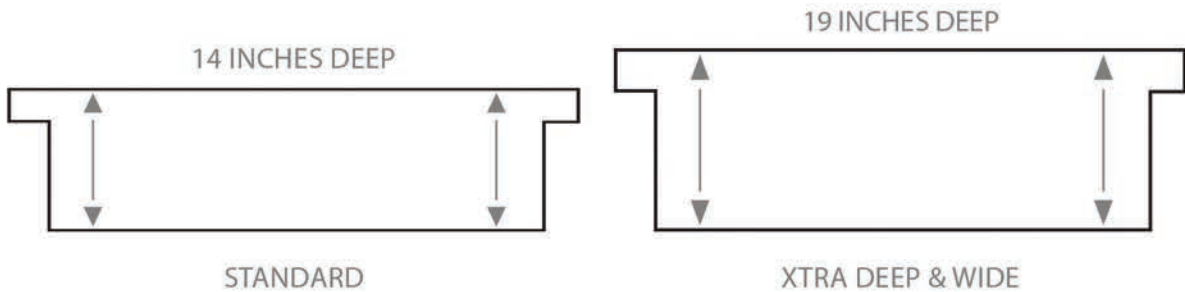

THE XTRA DEEP & WIDE:

Measures 19" deep (lid included) x 24.5" wide and is currently available in the 71 series with more to come soon! The profile options are again 6" above the bed-rail for the Regular or 3" for the LP. As the largest offering in the CamLocker line-up, the UN and FN notching systems are sure to provide the look and fit you expect from CamLocker. As with all of our boxes the XDW has our polished aluminum, matte or gloss black finish options.

THE CAMLOCKER SLIMLINE

With today's rise in the popularity of Crew Cabs and other extended cabs, the cargo beds continue to get smaller and smaller. The Slimline series is perfect for lockable protection without sacrificing your bed space.

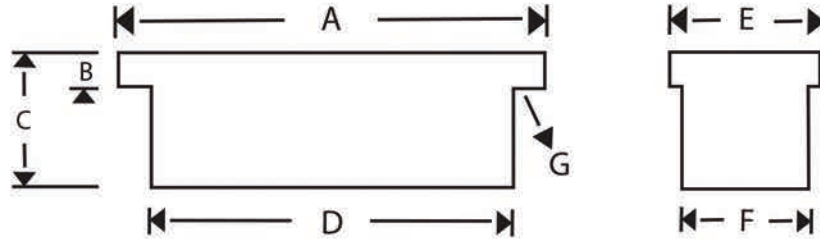

The SM#A model comes in at the same standard depth of 14" top to bottom (lid included) but with a reduced cab to tailgate measurement of 14" instead of the standard 20". Available in all series. The KS#A has the same features but provides the same depth as our King Size model at 19" top to bottom (lid included).

The Slimline models, both at 14" and 18" still come with all the same great quality you expect in a CamLocker. Fully carpeted with removable bottom piece and a removable tray that's made to fit.

CAMLOCKER SLIMLINE SPECIFICATIONS

THE SLIMLINE:

Measures 14" deep (lid included) on the Standard or 19" deep (lid included) on the King. Either 14" or 18" wide on any lengths/series from 54" to 71". As with our other lines, both profiles, Regular and Low Profiles are available. While the Slimline models are designed for shorter bed lengths our unique notching system is still available to accommodate appropriate fit. As with all of our boxes, the Slimline has our polished aluminum, matte or gloss black finish options.

THE CAMLOCKER SIDE MOUNT BOX

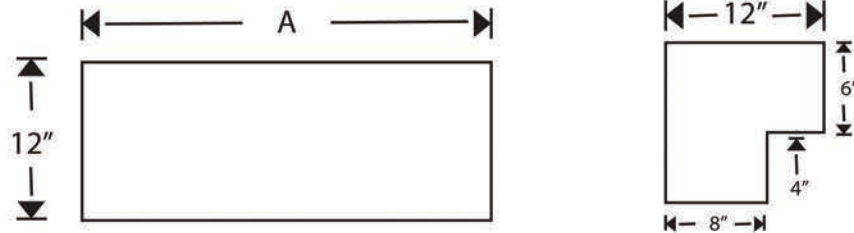

Designed to sit on the rail of your truck bed. The SMB's are great as an alternative or in addition to your crossover/saddle style toolbox. As with all of the CamLocker line-ups, the interior carpet and hefty chrome T-handles are included.

Measures 12" deep x 12" wide for the outer dimensions. All SMB's come with a notch that's 4" in and 6" up, where it sits on the truck bed-rail. The profile sits 6" above the truck bed-rail. SMB's do not have removable trays, but do come with support legs.

CAMLOCKER SIDE MOUNT SPECIFICATIONS

THE SIDE MOUNT:

Measures 12" deep (lid included) x 12" wide for the outer dimensions. All SMB's come with a 4" x 6" up notch where it sits on the truck bed-rail. Sits 6" profile above the truck bed-rail.

THE CAMLOCKER RECREATIONAL VEHICLE BOX

Great for use as an in-bed toolbox if you prefer it not to sit on the rails but finish with more of a flush look. The RV box can be used as a dock-box for use by the water or as the name suggests in the cargo hold in your RV. The RV series originally got its start at AAA, Inc. and CamLocker as a tack box in the horse and livestock markets.

BL = Bevel = 4" x 4" 45° angle in bottom left and right hand corners. Recommended for use in truck beds. Available on all models except the 36.

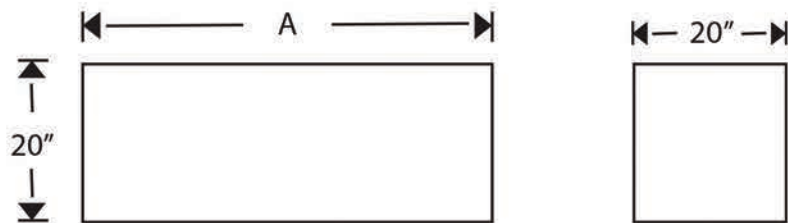

FN = Full Notch = up step/stair shape notch in bottom left and right hand corners to accommodate for wheel wells. Available on 53's.

SCN = Super Crew Notch = To accommodate wheel wells. Available on 57's & 60's.

CAMLOCKER RECREATIONAL VEHICLE BOX SPECIFICATIONS

THE RECREATIONAL VEHICLE BOX:

Measures 20" x 20" for the width and height with available lengths of 36, 48, 53, 57 & 60. With a design concept focusing on versatility, let your imagination run wild with possible usage ideas.

CAM RV 60 SUPER CREW NOTCH

PADDLE LATCH

The American Aluminum Paddle Latch tool box is manufactured with the same stringent quality standards as the Camlocker line, but offers additional economy with the paddle latch handle locking mechanism and does not come with the interior carpeting.

The American Aluminum Paddle Latch is a no frills, rugged, dependable toolbox that will secure your valuable cargo for years to come.

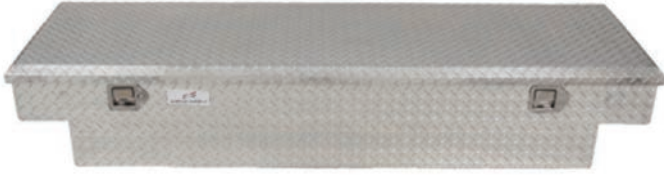

THE PADDLE LATCH

The American Aluminum Paddle Latch tool box will store valuable cargo at a price that won't put a dent in your wallet. With locking paddle latch handles your load will be safe and secure, with many style features to dress up your ride.

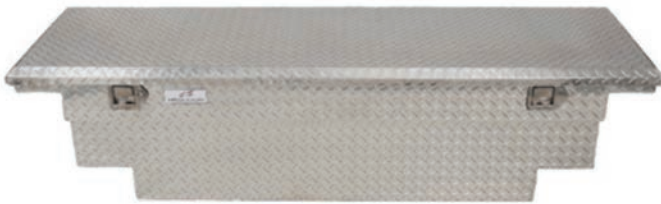

The Paddle Latch tool box is manufactured out of heavy duty .063 - gauge tread plate aluminum for the box and .058 - gauge for the lid to add to its toughness. The paddle latch can also be ordered in .125 for Xtra-heavy duty performance. Finishes in chrome, gloss black and matte black are available along with various sizes and profiles.

PADDLE LATCH SPECIFICATIONS

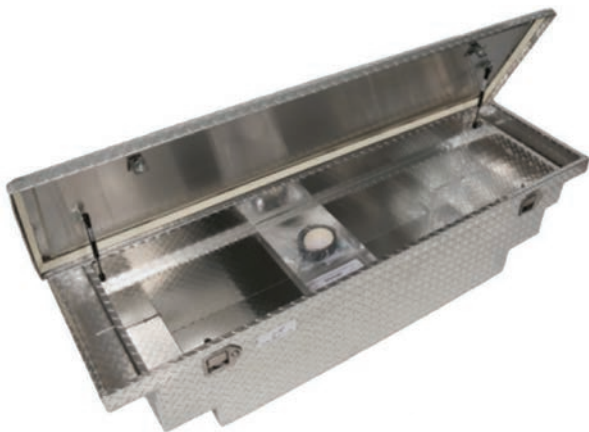

THE RECREATIONAL VEHICLE BOX:

The Classic Paddle Latch is 14" deep (lid included) x 20" wide and comes in lengths from 54" to 71" long. The Classic Paddle Latch has the same options available in terms of lengths, profiles and upgrades that are offered in our premium CamLocker line-ups.

THE KING:

The King Size Paddle Latch is 19" deep (lid included) x 20" wide making it 5" deeper than the Classic Paddle Latch toolbox and comes in the various lengths and profiles to fit your truck. What can you haul with 30% more secure storage?

THE DEEP & WIDE:

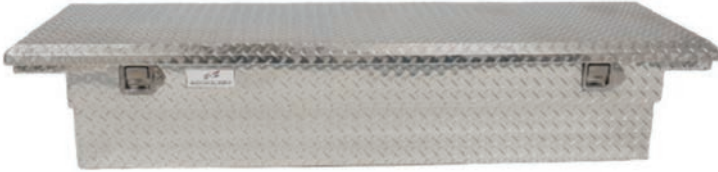

The Deep & Wide Paddle Latch is 16" deep (lid included) x 24.5" wide and comes in the 71" length. The 16" depth makes it 2" deeper than the Classic and the 24.5" makes it 4.5" wider.

THE XTRA DEEP & WIDE:

The Xtra Deep & Wide Paddle Latch is 19" deep (lid included) x 24.5" wide and comes in the 71" length. The 19" depth makes it 5" deeper than the Classic and the 24.5" width makes it 4.5" wider. As with all of our boxes the XDW has our polished aluminum, matte or gloss black finish options.

PADDLE LATCH SPECIFICATIONS

THE SLIMLINE:

The Classic Slimline Paddle Latch is 14" deep (lid included) x 14" wide and comes in lengths from 54" to 71" long. The King Size Slimline is 19" deep and 14" wide and comes in lengths from 54" to 71" long. Both models can be ordered in an 18" wide version by dropping the "M" in the product code.

THE SIDE MOUNT:

The Side Mount Paddle Latch box is 12" deep (lid included) x 12" wide and comes in lengths from 36" to 72". The SMB is designed to sit on the rail of your truck bed and serves as a great alternative or in addition to your crossover/saddle style toolbox.

THE RV BOX:

The RV Paddle Latch measures 20" deep (lid included) x 20" wide with available lengths of 36, 48, 53, 57 & 60. Great for use as an in-bed toolbox if you prefer it not to sit on the rails. Can be used as a dock-box by the water or as the name suggests in the cargo hold in your RV. The RV is a versatile solution that can be used to solve many of your secure storage needs.

ADDITIONAL STORAGE

UNDER BODY BOX UBB-24

THE UNDER BODY:

Designed as the name suggests to be installed under the body of the truck bed. With the harshest terrains and conditions in mind the UBB's are fabricated out of .125 gauge aluminum. The width and height measures a constant 18" x 18" with lengths available in 24, 34, 48 & 60. All UBB's come with folding T-handle operation and doors that open in a downward motion. Chain mounts connect the door to the body of the box to control range of travel and flailing/flopping when opened.

TOP MOUNT BOX TMB-24

THE TOP MOUNT:

Designed with many of the same characteristics of the UBB our TMB line up, as you may have guessed, is usually mounted on "Top" of the truck bed/body. Because of their mounting locations, our TMBs are constructed of .080 gauge aluminum. As with the UBB's, the width and height are a standard 18" x 18" and come in the same lengths of 24, 36, 48 & 60. We still use a folding T-Handle operation for closing and opening but the opening action of the lid is upward and supported by a set of lift cylinders.

ADDITIONAL STORAGE

WHEEL MOUNT BOX WMB

THE WHEEL MOUNT:

Designed as the name suggests to be installed over the wheel well in the truck bed. This versatile box makes the best use of the space above the wheel by providing a lockable storage area that is easily accessed from outside the truck. The Wheel Mount Box uses the folding T-Handle like the other additional storage options in the American Aluminum collection and is made of durable, lightweight .080 polished aluminum.

HAND HELD TOTE H-24

THE HAND HELD TOTE:

Measures 12" deep (lid included) and 12" wide and comes in lengths of 24" and 36". Made of durable, light weight, welded aluminum this tote box is perfect for tools, parts, and equipment. It will never rust and the MIG welded seams will not fail over time like spot welded metal boxes.

CAMLOCKER

CRAFTED WITH PRIDE IN THE U.S.A.

CamLocker - LIMITED LIFETIME WARRANTY. REGISTER ONLINE AT www.CamLockerOnline.com. Registering will activate the Limited Lifetime Warranty. You may also call or mail your warranty in to complete the registration process. Failure to register your product within 14 days of the date of purchase listed on your receipt will result in loss of coverage as detailed below. Limited Lifetime Warranty American Aluminum Accessories, Inc. (manufacturer) guarantees a limited lifetime warranty of materials and workmanship of the equipment due to normal use. The Limited Lifetime warranty remains in effect and applies to the original purchaser ("purchaser") of a new product. A new product is defined as Newly Installed CamLocker Toolbox. The warranty lasts for as long as the original purchaser owns the vehicle on which the product was originally installed. The warranty is not transferable from purchaser to any subsequent owner and/or vehicles. The warranty immediately terminates if product is removed from the original vehicle or if vehicle transfers ownership. Modification of any kind voids all warranty coverage. Warranty is limited to replacement or repair of genuine American Aluminum Accessories, Inc products. **See Bottom Conditionally Covered Items Wear and operational items such as shocks, latches, hinges, hardware, gaskets, keys, lift-cylinders, etc...are covered for 3 years/36 months from date of purchase on receipt. Replacements can be ordered via credit card by calling 1-800-277-0869. Powder coating carries a 1 year or 12 months from date of purchase warranty. Coverage extends through both currently available options of matte & gloss black. The high quality finish must be cared for and maintained like any other exposed finish. Protect the finish with non-abrasive auto-wash on a regular basis. Compounds with abrasive materials may scratch the finish and leave exposed areas susceptible to blemishing. All Warranty Claims must be initiated at the place of purchase. Original receipt proof of purchase, displaying the date and registered warranty must accompany all claims along with photographs referencing defect. What is not covered: Buyer assumes all risk, liability, cost for installation and use of American Aluminum Accessories, Inc products. All products are sold functionally as lifestyle products for work and play and are not relied upon as protection for the vehicle or its occupants in the event of an accident. The warranty does not cover re-installation, cost of removal, labor, transportation costs, loss of use, inconvenience or consequential damages. Warranty excludes damage resulting from misuse, abuse, accident, improper installation (when not installed by American Aluminum Technicians), modification of any kind, vandalism, spills, improper or inadequate maintenance or on-road and off-road hazards to the original purchaser.

**THIS LIMITED WARRANTY DOES NOT COVER LABOR COSTS or incidental, indirect, special or consequential damages such as, but not limited to, physical injuries or property damage, loss of time, loss of use of the vehicle, inconvenience, rental vehicle charges, towing charges or accommodations resulting from a defect in or failure of the part. This limited warranty represents the exclusive remedy for any product defect or failure and the total liability of American Aluminum Accessories, Inc., and its subsidiaries and affiliates ("AAA") for any part it warrants. AAA MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY, CONDITION OF ANY KIND OR FITNESS FOR A PARTICULAR PURPOSE. Some states do not allow disclaimers of implied warranties. Therefore all implied warranties that may apply to your purchase are limited to the duration of this written warranty. Some states also do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental, special or consequential damages, so the above information may not apply to you. This warranty gives you specific rights, and you may have other rights which vary from state to state. AAA does not authorize any person to vary the terms, conditions or exclusions of this warranty. If any provision of the warranty should become invalid or unenforceable because of any laws, the remaining terms and provisions of the warranty shall remain in full force and effect. To the extent allowed under local law, the remedies provided in this Limited Warranty Policy are the customer's sole and exclusive remedies.
