## WHY ALL-NATURAL?

Healthy Ponds products are all-natural, safe and effective. Just like you, at Bioverse® we care about the environment and what goes into the water streams. That is why we have designed our products to be completely all-natural and marine biodegradable. Our products are safe for fish, animals, pets and humans.

## CALCULATE POND SIZE

Before using our 3-step process, determine the size of the pond:

**LENGTH** **x** **WIDTH** **x** **DEPTH** **x** **7.5 = TOTAL GALLONS**

# 3-STEP PROCESS

**For best results, Healthy Ponds® recommends treating with our 3-step process.**

STEP

## 1 DISPENSERS

Continuously introduces a time-release proprietary blend of beneficial bacteria for 30 days, which consumes excess nutrients.

STEP

## 2 SUPPLEMENTS

Starts working immediately once it hits the water. It works as a high concentration of beneficial bacteria to increase the bacteria count quickly in the water which consumes the excess nutrients. Supplements are more beneficial when used in conjunction with dispensers.

STEP

## 3 COLORANTS

Improve the aesthetics and health of a pond by limiting sunlight penetration and keeping water cooler. Begin to use after water shows improvement from the use of dispensers and supplements.

STEP

## 1 AquaSphere® PRO

500,000 Gallon

TSC SKU: 228048699

Healthy Ponds® SKU: 51116

### ATTRIBUTES

- All-natural, safe, and biodegradable
- Consumes excess nutrients\*
- Improves water clarity
- Easy to use, no mixing required
- 24/7 time release
- Great for irrigation ponds
- Treats up to 500,000 gallons
- Veterinarian approved and safe for fish, plants, birds, animals, pets and people

For more product information and informative videos go to [tractorsupply.com](https://tractorsupply.com) and/or [healthyponds.com](https://healthyponds.com) or find us on YouTube.

## WHEN TO USE

- Pond has a history of dead organic matter\*
- Pond has sludge buildup
- Pond is producing an odor
- Pond has low water clarity
- Along with other Healthy Ponds® products

## HOW TO USE

- Can be used to treat water over 45° F and under 110° F
- Gently toss sphere(s) into your pond
- Evenly distribute spheres if using more than one
- Treat to the correct volume
- Overtreatment is safe, and at times, recommended
- Repeat every 30 days
- Vary sphere(s) placement monthly

\* **Excess Nutrients/Organic Matter** - Healthy Ponds® uses these terms to describe leaves, grass clippings, surface runoff after a storm, or animal droppings getting into a pond that could develop into or feed algae.

STEP

## 1 AquaSphere<sup>®</sup>PRO

1,000 Gallon, Pack of 3

TSC SKU: 228049499

Healthy Ponds<sup>®</sup> SKU: 51117

### ATTRIBUTES

# CUSTOMER SERVICE

If you need more information on Healthy Ponds® products, please contact one of our pond-cleaning experts by phone or email. Our hours are 8 a.m. to 5 p.m. (CST) Monday - Friday.

## PHONE

Toll-free at 877-948-0303

## EMAIL

support@bioverse.com

## BE PREPARED

So we can better assist you, please address the following before you call or email:

1. Amount (in gallons) of water to be treated?

Calculate pond size

**LENGTH**  $\times$  **WIDTH**  $\times$  **DEPTH**  $\times$  **7.5 = TOTAL GALLONS**

2. The address where the pond is located if unable to determine size.
3. Does the pond contain fish? If so, what type?
4. Is the water used for irrigation or is there an inflow or outflow of water?
5. If algae or weed growth is present in the water, please identify type. If unsure, please provide photos if possible.
