Electronic Predator Call Operating Instructions

Play 2 Sounds at the Same Time!

Press a call button for one sound and then press a second button for two sounds at the same time.

Play sounds to your ICOTec 300+ with your phone!

The ICOTec 300+ with Bluetooth allows you to stream audio files from your phone. Locate the ICOTec 300 Plus on your phone's Bluetooth and connect it as an external speaker. Switch from remote mode to Bluetooth mode and begin. You can play from up to 50 yards* away with a direct line of sight.

**Raise the call off the ground 2'- 4' for best results. Remote is good for 300 yards non-line-of-sight.*

2 YEAR LIMITED WARRANTY (Register within 15 days of purchase)

Your ICOTec product is warranted to be free of material defects and workmanship for 2 years after the date of purchase. In the event of a defect under this warranty, we will, at our discretion, repair or replace the product provided that you return the product postage prepaid. This warranty does not cover damages caused by misuse, improper handling or improper repairs performed by someone other than an authorized service contractor. Any return made under this warranty must be accompanied by the items listed below:

- 1) Contact Customer Service for instructions. You will need to complete a Warranty Claim form online prior to shipping product back to ICOTec. For service call (419) 450-3566 or email service@icotec.com.
- 2) Proof of purchase with date of purchase (store receipt)
- 3) Product should be well packed in a sturdy shipping carton with return postage prepaid to the address provided in your Warranty Claim Form.

This warranty gives you specific legal rights. Specifications and product designs are subject to change without notice or obligation.

To purchase accessories, batteries, decoys, tripods, remotes, merch & more... logon to icotec.com.

ICOTec offers a discount for current and former military, law enforcement officers, EMT and firefighters. We call it our Patriot Discount. Logon to ICOTec to learn more.

ALWAYS TEST YOUR BATTERIES BEFORE YOU LEAVE THE HOUSE!

The ICOTec remote control, and caller have integrated battery level sensors for your convenience: REMOTE - Turn on remote power, press and hold any call button, if the LED blinks then it needs changed. CALLER - Turn power on, play two calls at the same time by pressing two separate call buttons, if the LED blinks then change the batteries.

Setup & Operation Instructions

ICOTec 300+ Electronic Predator Call

1 Add Batteries

CALLER - Place 4 new AA batteries as indicated inside of the game call, close panel door and tighten screw. Use lithium batteries for best results in cold weather.

REMOTE - Place an A23 battery as indicated and replace the cover. Turn on the power switch and press a call button to play a sound.

2 Turn Caller On

Slide the power switch to the ON position. The LED indicator will light up if unit is on and the batteries are good. If the LED does not light up, check that your batteries are new and installed properly.

3 Turn Remote On

Turn the power switch to ON. When the power comes on the LED will blink twice to notify you that the remote is ready.

4 Raise Antenna

Place antenna in upright position on main unit. Carefully slide the remote antenna up for maximum distance.

5 Select Call(s)/Pause Call(s)

When you select a call it will play 30-40 seconds and then replay automatically. You may press PAUSE to immediately stop the sound. Press PAUSE again to restart the sound where it was paused. To end calls press STOP.

6 Adjust Volume

Press volume up arrow for louder or volume down arrow for quieter.

7 Buttons Light Up

Press the LIGHT button to turn ON and illuminate the remote buttons for night hunting. DO NOT leave lights on while hunting, it will rapidly deplete the battery.

Pairing Remote to Unit

If you purchase a replacement remote or your remote becomes unresponsive you can pair it up to the call unit.

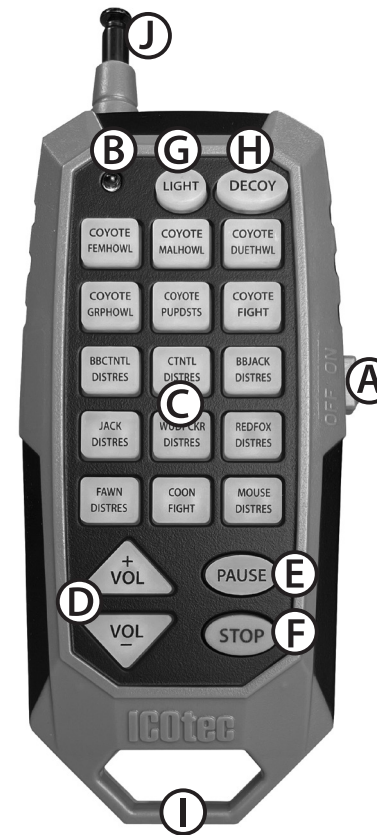

Using a small paper clip, press the reset button located inside the hole to the left of the "ON/OFF" switch. This will activate the pairing process, while the call unit LED light is blinking, turn remote on then press any call button on the remote, it will begin playing that sound within 3 seconds.

Trouble Shooting

Unit does not play calls - Be sure batteries are NEW and are installed properly. If you press a call button on the remote and the LED light blinks, you need to replace the A23 battery. If the unit begins behaving strangely and not playing proper sounds, or you have trouble starting and stopping sounds, check the battery indicator light on the unit. If it is blinking you need new batteries.

Lost Your Remote?
