

IMPECKABLES™

Brooder Box

Assembly guide

- 1.) Loosely fit the side panels together with the bottom, next insert the end panel tabs into the slots in the side panels.
- 2.) Slide the end panels up to lock the tabs into place. As shown below.
(note : natural wood can expand due to humidity causing fitment to be tight. A Rubber Mallet may be used to aid in assembly)

Chicks should stay in brooder for a min. of 6 weeks or until adult feathers come in. Check feed and water daily and bedding.

***Recommend heater plate to keep chicks warm**
