# Time to Roam with Halo

The first, safe way to take your small pet on a walk. Give your small pet the life they deserve!

# HALO

## Pet Carrier

Your pet hamster will never be bored with the Halo Happy Habitat attachment. This small pet ball carrier fits securely around our exercise ball, allowing the user to carry his or her pet in the exercise ball. Whether on the go or around the house, the ball carrier serves as an easy way to interact with your pet that is fun for both pet and owner.

### Key Benefits

- Carry your small pet easily for a stroll
- Use outdoors as well as indoors
- Ball can spin freely within carrier, allowing pet to run around while on the go as well as remaining stationary
- Allows animal to run in forward and backward motion

### Easy Grip Handle

Can spin or remain stationary with mounted leg attachments

### Winner of the SuperZoo Best in Show 2021.

Our product is the first innovation in small pet products in years. We enable small pets and their owners to enjoy time together outside of their permanent enclosure safely and easily. Come and experience the excitement for yourself!

Secure locking cap

Well Ventilated

# ROAM

## Exercise Ball

Let your small pet roam free in the Happy Habitats Small Animal Exercise Ball. Our unique ball is made of durable, transparent plastic and allows your small pet to explore the great big world outside his normal habitat while staying safe and secure. Our vent pattern does not allow little feet and claws to get caught. Plenty of openings on all sides provide ventilation to keep him comfortable, and it can even be used to transport him outside your home.

### Key Benefits

- Provides essential exercise and stimulation for your pet as well as great entertainment for you.
- Ventilation holes are 2mm wide to prevent paw trapping and has an increased surface area for ventilation
- The ball is screwed shut so it will never split open
- The lid has a two-step locking mechanism to ensure your pet is safely fastened inside
