LED Flag Pole Instruction

IMPORTANT: READ CAREFULLY BEFORE ASSEMBLY AND USE.

Proper installation of this product requires the installer to have a good understanding of automotive electronics, systems, and procedures.

If mounting this product requires drilling holes, the installer MUST be sure that no vehicle components or other vital parts could be damaged by the drilling process. Check both sides of the mounting surface before drilling begins. Also de-burr any holes and remove any metal shards or remnants. Install grommets into all wire passage holes.

If this manual states that this product may be mounted with suction cups, magnets, tape or Velcro®, clean the mounting surface and dry thoroughly prior to apply adhesive for maximum adhesion. Do not attempt to activate or control this device in a hazardous driving situation.

Do not install this product or route any wires in the deployment area of your air bag. Equipment mounted or located in the air bag deployment area will damage or reduce the effectiveness of the air bag, or become a projectile that could cause serious personal injury or death. Refer to your vehicle's manual for the air bag deployment area. The User/Installer assumes full responsibility to determine proper mounting location, based on providing ultimate safety to all passengers inside the vehicle and usage of this.

This product contains either strobe light(s), halogen light(s), high-intensity LEDs or a combination of these lights. Do not stare directly into these lights. Momentary blindness and/or eye damage could result.

Mounting:

CAUTION! This Led Flag Pole is designed to be used for Offroad Use only!

1. Removing the Flag Pole from the shipping package and inspect for any damage.
2. Insert the tailgate hitch bar mount and insert hitch pin/clip(not included) and ensure tailgate hitch mount is secure.
