

## So Many Uses!

**BATHING**

**TRIMMING NAILS**

**GIVING MEDICINE**

**CLEANING TEETH  
& DENTAL CARE**

**EAR EXAM**

**CALMING**

### Tips:

- Get your pet acclimated to the bag prior to use.
- Do not fasten drawstrings too tightly.
- Reward good behavior with treats and hugs.
- Be patient!

### Use and Care Instructions:

- May be used to lift and carry short distances. Not intended as a long distance/long-term carrying bag.
- Machine washable. Tumble dry low or air dry.

## Directions

1 Scrunch up the bag while using both hands to keep top (white end) and bottom openings open.

2 Put the bag over the head, and with the head exposed, lightly tighten the first drawstring to secure around the neck.

3 Pull the bag down over the rest of the body, leaving the tail out, and tighten the last drawstring. Adjust the second and third drawstrings as needed.

4 If trimming nails, open the zipper and take out one paw at a time.

5 If bathing, keep paws zipped in. Apply shampoo on top of the bag and lather through the bag. Rinse with clean, lukewarm water.

6 A hair dryer may be used to dry the cat and bag together. Use the lowest warmth setting. Or simply towel dry. Don't forget a treat afterwards!
