

Needlepoint Holly

Ilex cornuta 'Needlepoint'

Needlepoint Holly showcases evergreen shiny green leaves that provides year-round texture and color to your landscape. Petite white flowers arrive in spring and become the attractive and abundant berries that add color and attract birds in fall and winter. Needlepoint is a fast growing shrub achieving up to 3 feet per year. Once established, Needlepoint will require little to no maintenance. Perfect for containers, privacy screens, hedges, and as accents!
