

Catapult LockJaw Pairing Guide

Matched recovery rope and synthetic shackle combinations

CATAPULT RECOVERY ROPE

Part #	Break Strength (lb)
10-4100030	130,000
10-4100020	130,000
10-4075030	80,400
10-4075020	80,400
10-4062530	52,000
10-2062530	26,400
10-2062520	26,400
10-2050020	16,400
10-1050020	8,200

LOCKJAW SOFT SHACKLES

Part #	Break Strength (lb)
15-062514	100,000
15-062514	100,000
15-056312	80,000
15-056312	80,000
15-050012	60,000
15-031310	26,400
15-031310	26,400
15-025008	16,500
15-018808	9,000

3:1 Design Factor

For safe use, the maximum working load in your application must not exceed one-third of the breaking strength of the recovery rope or shackle—whichever has the lower rating. This 3:1 safety factor helps ensure safe operation.
