

UNBEETABLE™ ORIGINAL

ALFALFA + BEET PULP + FLAX OIL

**FORAGE-FOCUSED. VERSATILE.
TRUSTED.**

Unbeetable Original, formerly known as Forage Only, is a grain-free, forage replacement designed for horses and other livestock.

Made from a simple, high-fiber blend of alfalfa, beet pulp, and flaxseed oil, Unbeetable Original provides safe energy, digestible fiber, and natural fat—without added grains or unnecessary fillers.

Whether used as a complete forage replacement, a supplement to hay or pasture, or a way to stretch forage supplies, Unbeetable Original delivers consistent nutrition that supports digestive health and body condition in horses and beyond.

WHY CHOOSE UNBEETABLE ORIGINAL?

- **Grain-Free & Ultra Low Starch/Sugar** – Safe for horses with metabolic concerns, PPID, or grain sensitivities.
- **Forage Replacement or Supplement** – Can be fed as the sole forage source or alongside hay/pasture.
- **Digestible Fiber & Natural Fat** – Alfalfa and beet pulp provide safe energy, while flax supports skin and coat health.
- **Versatile Across Species** – Safe and beneficial for cattle, goats, sheep, and camelids in addition to horses.
- **Simple & Flexible** – A straightforward formula that can be paired with fortified feeds like **Unbeetable Balance** or **Complete** or vitamin mineral mixes.

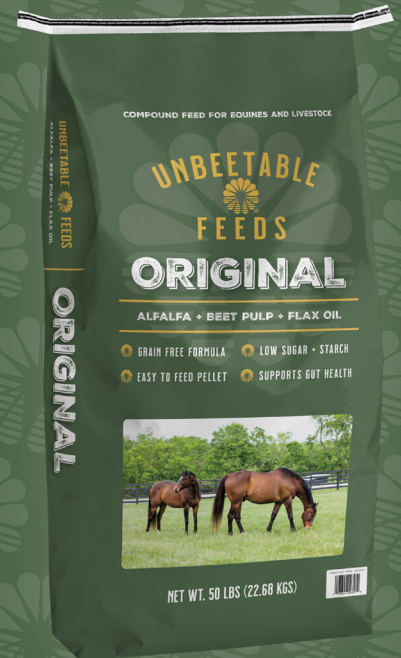

WHEN TO FEED ORIGINAL?

- As a complete forage replacement when hay or pasture quality is limited
- To stretch forage supplies during shortages
- For horses needing a soft, digestible fiber source
- For multi-species farms seeking a safe, consistent forage option
- As a forage source or supplement carrier alongside **Unbeetable Balance**, **Unbeetable Complete**, or your own vitamin mineral mix
