

Haunted Hill Farm®

Add a large scary shadow to your outdoor (or indoor) Halloween display with durable Iron Silhouettes from Haunted Hill Farm. Halloween decorations are not just for night time. Our Halloween silhouettes' sleek, distinct shape looks great on your lawn or in your garden all day long. The matte black finish over sturdy, laser-cut iron will stand out in bold contrast against your lawn and garden.

Your large silhouette comes with stakes and an easel that are interchangeable, so you can choose how you want to display it. The dual metal stakes are easy to attach and ensure secure mounting so the silhouette won't blow away. Instead of a yard stake display, your silhouette also makes a great porch leaner or foyer greeter with the included metal easel that is quick and easy to attach to its back.
