

THE CATCH 110 HDII

KRP11P100 – Fishing Kayak

Made of our patented RAM-X™ PREMIUM material, THE CATCH 110 HDII brings pedal drive technology within reach on this 10'6" rudder controlled fishing kayak. Weighing only 67 lb, it is easy to transport and particularly suitable for paddlers between 5' and 6'4". The HyDryve II™ pedal system makes it easy to maneuver in shallow water or around aquatic plants and you will be able to cover long distances without getting tired using the power of your legs. This fishing kayak also comes packed with convenient features you'll love such as multiple flush mount rod holders, bottle and tackle box holders, an accessory eyelet, an 8 inch day hatch with storage bag and two tank wells for easy storage.
