

CANYON CREEK ABELIA

ABELIA X GRANDIFLORA 'CANYON CREEK'

Canyon Creek Abelia is a multi-stemmed evergreen shrub with a mounded form. This compact shrub has glossy dark green leaves that are tinged with bronze, with a dazzling bronze-rose fall color. The tidy, mounded habit and tubular pinkish-white flowers make this shrub a welcome addition to smaller spaces! Canyon Creek features dainty clusters of lightly-scented white tubular flowers with shell pink overtones at the ends of the branches from early summer to mid fall, which emerge from distinctive rose flower buds. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

Canyon Creek Abelia is recommended for the following landscape applications- mass planting, general garden use, and container planting.

HEIGHT- 3 feet

WIDTH- 4 feet

EXPOSURE- Full Sun to Part Shade

HARDINESS ZONE- 6-9

HEAT ZONE- 9

SHAPE- Mounded

FLOWER COLOR- White and pink

FOLIAGE- Green

Planting Instructions

- Water before planting
- Plant in Full Sun
- Dig hole 3X the width of pot
- Back-fill and plant 1"-2" above soil level
- Water and add more soil if needed
- Mulch plants
- Fertilize in early spring
