These calming Bites deliver a triple dose of goodness. L-Theanine (Suntheanine®) and valerian root help anxious and high-energy pups relax, without causing drowsiness. Ginger and chamomile soothe nausea, and chicory promotes overall gut health. Treat your best friend to a little calm.

WHY BREEDWISE?

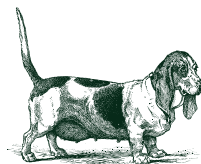

We're bringing together the best of both.

Historically, pet wellness has fallen into two camps: conventional medicine and homeopathic remedies. Breedwise founder Kendrick Smith, Pharm. D, believes that dog lovers shouldn't have to choose. As our team formulates new recipes and design new wellness products, we draw from both the latest clinical and anecdotal research. We're after true solutions.
