SQUIRE LOCKS USA

Who is Squire?

Squire is a family brand with great history spanning over two centuries, which has been carried down through eight generations. Over this time, the one thing that's kept us going is our ability to change with the world. It's with this in mind we're proud to introduce the new Squire brand.

It all started when William Squire began making locks in 1780, before most people would even lock their doors or protect their belongings. His early products included a small range of mechanism padlocks, door locks and cabinet locks.

In the early 1800s, Squire supplied locks to the British Army in the Napoleonic Wars. This led us to develop the first lever padlocks. Before long we were supplying locks to companies across the British Empire.

By the time Thomas joined him, his locks were famous enough for the company to be formally incorporated. In 1906, Henry Squire & Sons Ltd was registered, marking the beginning of a legacy that continues to this day.

Celebrating over 240 years of Lock Manufacturing

Squire has been at the forefront of international lock making for over 240 years. As an eighth generation independent family owned lock manufacturer, Squire continues its tradition of offering high-quality, performance-led products at very competitive prices.

Technological innovation is our trademark quality, producing market leading security solutions for the home, business and on the move. Using superior design capabilities and manufactured with state-of-the-art production methods, the result is an unrivalled range of top security products, including our new range of super intelligent padlocks which revolutionize smart access control, named Inigma.
