

CONVERTIBLE BIRD HOUSE/WINTER ROOST

- Suitable for a variety of birds
- Converts from a winter roost to a summer birdhouse by simply removing two screws and inverting the front panel
- Provides a shelter with perches for birds during the harsh winter season
- Remove perches and reverse the front panel to provide a nest box for birds in the spring
- Slate entrance guard deters squirrels
- Front opens for easy observation and cleaning
- Handcrafted from 0.75" eastern white pine for insulation and durability
- Mounts easily with metal hanger
- Information and instructions included

HANDCRAFTED IN MISSOURI
