

Thank you for choosing Richell's Product. Please read this instruction manual carefully before using this product, and keep it for future reference. If you give this product to someone else, please also give this instruction manual to the new owner. Please note some parts of the figures shown below may be slightly different from the actual product, for your better understanding of the structure and proper use.

Parts

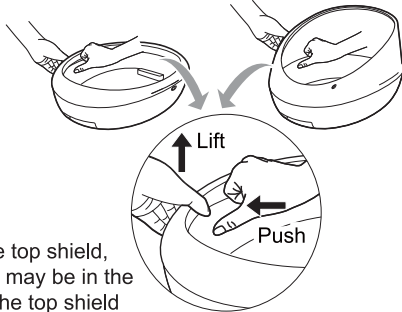

Instructions of Proper Use

⚠ Caution

- This product is designed for use as an indoor cat litter pan. Do not use this product for anything other than its intended use.
- Do not use this product as a toy for child.
- Do not lift this product with your cat.
- To move this product to another location, lift from the bottom pan. Lifting from the top shield may cause to drop and/or product damage.
- Do not drop or misuse this product. It may cause an accident and/or product damage.

How to remove the top shield

- To remove, lift the top shield by pushing from inside.

Important!

- While removing the top shield, the remaining litter may be in the product. Remove the top shield in an area where litter can be spilled.

How to use

- Cats, who do not like dirty areas, prefer to use a clean bathroom.
- Please make sure to keep it clean all the time.
- Please use clumping cat litter that is available at store.
- For the amount of cat litter usage, please follow the instruction manual for cat litter.
- The Litter Scoop can be hung on the back of top shield.
- When refilling entire cat litter, please remove the top shield.

How to care

- Use a mild detergent and water and clean with a soft sponge. After wash, dry in a shaded area away from direct sunlight. It may cause discoloration.
- Cleaning with a scrub brush and/or using a polishing powder may cause scratches.

Specification

UPC	803840 60007-8	803840 60007-8
	803840 60008-5	803840 60008-5
	803840 60009-2	803840 60009-2
Dimension	14.2"W x 18.5"D x 4.7"H	14.2"W x 18.5"D x 9.6"H
Material	Main unit, Shield and Scoop: Polypropylene	

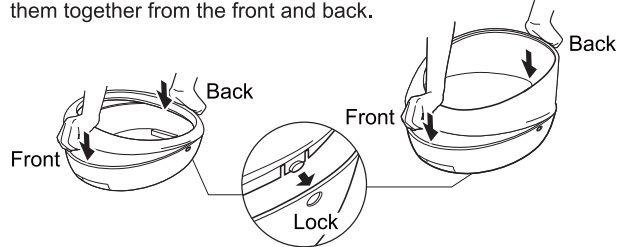

- Please note that product specifications and design may change without prior notice for the purpose of quality improvement.
- If you have any comments regarding the product, please contact us using the contact information below.

Important!

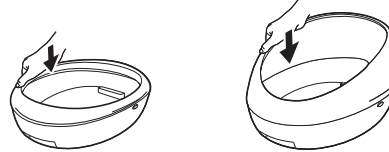

- Please make sure to attach the top shield and bottom pan correctly.
- Do not place this product in direct sunlight. It may cause a deformation and/or product damage.
- Keep this product away from all heat sources at all times. Also, please do not pour in boiling water. It may cause a deformation and/or product damage.

How to attach the top shield

1. The locks are located on right and left side of the top shield and main unit. Align the locks on both top shield and main unit. Then, attach them together from the front and back.

2. Then, push the top shield from above so other side of lock can fit securely.

Litter box training guide

For litter box training for kitten, bring them near the litter box every two or three hours after breakfast, so the training process can be faster.

- (1) **Privacy, Please;** Place the litter box where your cat can be comfortable (a corner of the room where it is dark). Once its placed, please do not remove.

- (2) **Where is my box?;** When your cat starts to sniff around and becomes anxious, bring your cat near the litter box.

- (3) **Job well done!;** After your cat successfully uses the litter box, praise them. The cat remembers the litter box faster when praising continuously for about a week. (Please be patient.)

- (4) **Accidents happen!;** When your cat misses the litter box, wipe the area with a paper towel to remove any odor marks. (Put the soiled paper towel inside the litter box to leave the odor mark in, so your cat can track back inside, not outside of the litter box.)
