

10 in. Band Saw

Your tools. Your shop.™

Model Number: SS0245

Band Saws

Looking to add more versatility to your home workshop with tools that offers premium features and superior performance? SHOPMAX is the answer! This 4.2 Amp, 10" Band Saw offers both functionality and affordability. The band saw is designed to precisely cut through a variety of wood materials helping you with your woodworking projects. It features a spacious 12" x 12" worktable with the ability to tilt up to 45 degrees for angled cuts. The band saw offers stability and durability with its steel tubular construction and heavy-duty base design. This model features a suction connector allowing to connect a dust extractor (not included) to help reduce debris and dust around your work area.
