

Dust Collector

Your tools. Your shop.™

Model Number: SC0075

Vacuums & Cleaners

At SHOPMAX we have the tool you're looking for to take on your next project with an improved air quality workplace. Have complete control of sawdust, dust particles and other airborne pollutants with this mobile SHOPMAX SC0075 large capacity dust collector. Able to hold up to 20 gal. of dust, this unit highlights a heavy duty and powerful 6.3-amp motor that runs on 120 V combined with a 12" impeller for a maximum airflow capacity of 677 CFM. Equipped with wheels and an onboard carrying handle, the dust collector offers maneuverability and total portability within your space. The included 4 hose adapters makes it suitable for a range of woodworking machines, directly connect it and capture dust at the source. Have a clean, dust-free, and safe workshop, shop SHOPMAX!

- Powerful 6.3-amp motor delivers a maximum airflow capacity of 677 CFM for a greater suction capability.
- 12" impeller offers a high air flow capability which contributes to an increased efficiency and overall dust collection performance.
- Holds up to 20 Gal. of dust to help keep your space clean and organized.
- 4 hose adapters allow for the connection to a range of woodworking machines tools and facilitate efficient dust collection at the source.
- Sturdy construction ensures durability.
- Easy operation with a convenient on/off switch.
- 2 wheels and an onboard carrying handle for an easy transportation.
