

Operation Manual # 39012

READ AND SAVE THESE INSTRUCTIONS

INTENDED USE:

This product is applied to inflating for both family and commercial use.

VERY IMPORTANT SAFETY INFORMATION:

Always follow these instructions to avoid bodily injury.

DANGER: Do not submerge motor or allow motor to be exposed to water. Personal injury and/or death could result.

WARNING: Risk of electrical shock—This fan is provided with a grounding plug or GFCI type plug. To reduce the risk of electrical shock, be certain that it is connected only to GFCI protected receptacle when use if the fan isn't provided with a GFCI type plug.

WARNING: Electric shock hazards—May cause severe personal injury or death. For your safety, turn off the electrical power supply at the service entrance before installing, moving, or servicing your fan to avoid any possible electrical shock hazards. Never make adjustments to the fan when in power is on. When plugging in fan, adjusting head and changing speeds. Never stand in water. This practice can result in a dangerous or even fatal electric shock.

DANGER: Never handle the fan or motor with wet hands or when standing on wet or damp surface or in water. Fatal electrical shock could occur.

WARNING: Electric shock hazards—may cause severe personal injury or death. Do not under any Circumstances remove the power supply cord ground prong or ground fault Unit. For your personal safety, the fan must be grounded. Removal or tampering of power cord will void warranty. Never use an extension cord to connect the fan to an outlet. All installations must be made into a grounded outlet. Unplug the fan when not in use. Do not use an extension cord with this fan.

WARNING: To reduce the risk of fire or electrical shock, do not use this fan with any solid state speed control device. This appliance had a 3-prong plug. To reduce the risk of electrical shock, this plug is intended to fit in an outlet only one way. If this does not fit outlet, contact a qualified electrician. Do not attempt to bypass this procedure.

CAUTION: Read and follow all instructions before operating fan. Do not use fan if any part is damaged. **WARNING:** If the power supply cord is damaged, contact your local service centre or a qualified electrician to install an appropriate replacement cord to prevent any injury or damage.

Automatically operated device - To reduce the risk of injury, disconnect from power supply before servicing. The appliance does not apply to be used in locations where special conditions prevail, such as the presence of a corrosive or explosive atmosphere (dust, vapour or gas).

This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

Children should be supervised to ensure that they do not play with the appliance.

CAUTION

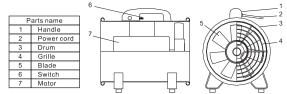

- □ Never insert fingers or any other objects through the grill guard when fan is in operation.
- □ Disconnect the fan when moving from one location to another.
- ☐ Disconnect the fan when removing guards for cleaning.
- $\hfill \Box$ Be sure fan is on a stable, flat surface when in operation.
- □ Do not use fan in windows. Rain may create electrical hazard.

MAINTENANCE AND STORAGE

- 1. To keep the fan clean you can use a dry cloth to wipe the surface of the fan.
- 2. You should not clean the fan with a chemical solution as this may damage the coating and plastic parts.
- 3. Never clean the fan in water.
- 4. The fan should be stored indoor.
