

25942 – K-N1MILE-6 Operating Instructions and Precautions 11292303U

Charging: This product is rechargeable. Please charge fully before first use to ensure optimal performance. Pull back the rubber port cover. Connect the full sized USB plug of the included charging cable to a USB power source such as a power cube, computer or car adapter and the Micro USB plug into the charging port of the flashlight. A red flashing light indicates charging is in progress. Charging is complete when the charging light turns solid green. Replace the port cover. **Note:** DO NOT USE THE FLASHLIGHT WHILE IT IS CHARGING!

LOCK OUT PROTECTION: This flashlight automatically locks after 2 minutes of non-use!

Double click the power button to unlock the flashlight. The power button blinks twice to confirm it is unlocked. Click again to select your desired brightness mode. Double clicking the power button also manually locks the flashlight, preventing accidental activation. The power button blinks twice to confirm it is locked. For safety reasons, store the flashlight in locked mode & remove batteries.

Flashlight Operation: Repeatedly pressing the power button cycles between high and low brightness modes plus off.

To adjust the beam size, hold the body of the flashlight stationary while pushing or pulling the head in or out to the desired amount of focus.

The base of the flashlight is magnetic and adheres to most smooth, rust-free metal surfaces except aluminum.

Charging a Smartphone: Pull back the rubber port cover. **Using your own phone charging cable**, connect the full sized USB plug into the flashlight's USB port. Connect the other end to your device. Replace the port cover when finished. **Note:** Charging a smartphone reduces the runtime of the flashlight.

Battery Replacement: Unscrew the battery compartment cap at the base of the flashlight and remove the battery. Insert a new 26650 3.7v 4000mAh rechargeable lithium ion battery with the raised end first. Screw the battery cap back on. **Caution:** Do not overtighten.

Caution: Lithium batteries can explode or cause burns if shorted, overheated, disassembled, recharged or exposed to fire or high temperature (above 212°). If the flashlight is turned on while in a container or in clothing, the flashlight can overheat, damage the flashlight and/or cause surrounding material to ignite.

Warning! To prevent serious injury, including temporary or permanent loss of sight do not stare into the light, shine light into eyes or focus the beam using an additional lens. Keep away from infants and toddlers as this product contains small parts.

This product is not a toy! Use this light only as it is intended. Inspect before every use. Do not use if parts are damaged, loose or missing.
