

26055 - K-6K-6 Operating Instructions & Precautions 04132304

Charging: This product is rechargeable. Please charge fully before first use to ensure optimal performance. Pull back the rubber charging port cover. Connect the full sized USB plug of the included charging cable to a USB power source such as a power cube, computer or car adapter and the mini-USB plug into the charging port of the flashlight. A blinking blue light on the four step charging/battery life gauge indicates charging is in progress. Charging is complete when all four indicators are solid blue. **NOTE: DO NOT USE THE FLASHLIGHT WHILE IT IS CHARGING!**

LOCK OUT PROTECTION: This flashlight automatically locks after 2 minutes of non-use!

Double click the power button to unlock the flashlight. The light blinks twice to confirm it is unlocked. Click again to select your desired brightness mode. Double clicking the power button also manually locks the flashlight, preventing accidental activation. The light blinks twice to confirm it is locked. For safety reasons, store the flashlight in locked mode & remove batteries.

Flashlight Operation: After unlocking, repeatedly pressing the power button on the side of the flashlight cycles through high, medium and low brightness modes plus off.

To adjust the beam size, hold the body of the flashlight stationary while twisting the head clockwise or counterclockwise.

Charging a Smartphone: Hold the head of the flashlight stationary and twist the body counterclockwise until it stops. **Using your own phone charging cable**, connect the full sized USB plug into the flashlight's USB port. Connect the other end to your device. **NOTE:** Charging a smartphone reduces flashlight runtime.

IMPORTANT: The flashlight is powered by an 18650, 2200mAh, 7.4V replaceable lithium-ion battery assembly and must be replaced with an exact replacement.

Caution: Due to high light output, certain areas of this flashlight may become hot while in use. Avoid touching the area where the "HOT" symbol is visible.

Caution: Lithium batteries can explode or cause burns if shorted, overheated, disassembled, recharged or exposed to fire or high temperature (above 212°). If the flashlight is turned on while in a container or in clothing, the flashlight can overheat, damage the flashlight and/or cause surrounding material to ignite.

Warning! To prevent serious injury, including temporary or permanent loss of sight do not stare into the light, shine light into eyes or focus the beam using an additional lens. Keep away from infants and toddlers as this product contains small parts.

This product is not a toy! Use this light only as it is intended. Inspect before every use. Do not use if parts are damaged, loose or missing.
